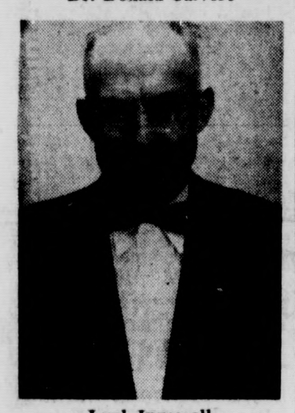
# INCUMBENTS WIN, AMENDMENTS OUT

## Calvert, Miles Made New School Trustees; Charter Changes Phft!

Dr. Donald Calvert

Anna M. Eason

Elio A. Fontana



Lyal Ingersoll

Dr. Jerry C. Miles

Katherine Mullen

Tom Noonan

Incumbents of both the Jefferson Elementary and Jefferson Union High School Districts were swept back into office Tuesday with a sizeable vote of confidence from the voters, who also elected two new trustees to the respective boards.

Some 5,294 persons -- or approximately 23 per cent -- of the 23,195 eligible voters within the Jefferson Elementary District went to the polls.

Easily re-elected to the Jefferson Elementary Board were Mrs. Katherine Mullen and Thomas Noonan. Young Dr. Donald Calvert, a children's speech specialist, was given the nod for a four-year term. He will fill the seat to be vacated by Frank Verducci who did not choose to run again.

Retained on the high school board are Elio Fontana, Mrs. Anna Eason, and Lyal Ingersoll. Dr. Jerry Miles, a Pacifica chiropodist, was elected to the seat formerly held by Dr. Robert Rockstein, who resigned earlier this year.

Dist. Supt. Edward Morgan said he will ask County Superintendent of Schools James Tormey to immediately appoint Dr. Miles to the board to fill the vacancy. Dr. Rockstein's term ends July 1. At that time, Dr. Miles and the new board will be sworn in for new, full terms. Dr. Calvert will not take his seat until July, when that board is sworn in.

In the high school board race, incumbent Elio Fontana led off by racking up 4,875 votes. Mrs. Eason came in second with 4,526, and Ingersoll

*FOR GOLDEN JUBILEE*

## Queen Contest Dates Are Set

A city-wide contest in which two queens will be selected to represent Daly City during its Golden Anniversary Celebration and pre-celebration festivities will begin Monday, according to Contest Chairman Fred Martin.

The contest is sponsored by the Daly City Chamber of Commerce and will include the selection of both a Miss Daly City and a Mrs. Daly City.

The two queens will be outfitted with gold ensembles and will reign over the Golden Anniversary festivities October 7-14. Miss Daly City also will represent the city in the Fiesta Dream Girl contest in San Mateo.

Candidates for Miss Daly City must be residents of the city, unmarried and between the ages of 16 and 22. They may enter the contest by filling out entry blanks to be provided by the Chamber of Commerce.

To encourage community-wide participation in the Mrs. Daly City contest, candidates will be selected by nominations from friends or relatives. Candidates must have lived here when the city was incorporated in 1911 and will be judged on their contributions to the outstanding growth and development of the community.

Martin said that entry blanks for the Miss Daly City contest and nomination blanks for the Mrs. Daly City contest may be

## FIX UP PAINT UP CLEAN UP

"Fix Up, Paint Up, Clean Up" will be the byword this week as Daly City's third annual "Home Improvement Week" gets underway.

Backed by the City of Daly City and the Daly City Chamber of Commerce, the community-wide event puts the emphasis on home improvement as the way to a "better life for our families, enhanced property values, and a more wholesome, healthy and happy community."

In conjunction with the annual observance, Marchbanks Publications includes in this edition an idea-packed 20-page "Home Improvement Section."

The section includes news and pictures on up-to-date home improvement features, suggestions for the home handyman as well as many ideas which can be carried out by your local contractor.

Also appearing in the section are advertisements from local retailers, suppliers, contractors and service firms and many

## Fear Resolution Could Make Alemany State's Solution For Freeway

A resolution demanding that if one route for a lateral freeway between Junipero Serra and Skyline Boulevard be reconsidered at the State Highway Commission's called May 2 public hearing in Daly City, all previously discussed routes — including Alemany — be reconsidered also, has been authorized by the City Council of Pacifica.

City Attorney Conrad Reisch, who is currently drawing up the resolution, told this paper that Pacifica is determined not to sign any new agreement as to route without a thorough rehash of the entire issue.

He explained that because of a state law that cities must first agree to proposed routings through their own property before the state can proceed, the matter could build to a point where the state's only alternative would be to route the freeway lateral along Alemany, which is state-owned property

This is the route which the Daly City Council bitterly opposed during the past negotiations and public hearings in the issue and still does.

The public hearing has been called to clarify what the commission describes as "confusion" over the originally approved "Route B."

"The calling of the hearing has been unofficially attributed to McKeon Builders which seeks to route the freeway along its modified Route A-1-D, which would cut through a sizeable portion of Pacifica land scheduled for extensive planned community development," Reisch said.

## SSF GROUP PUSHING FOR REFERENDUM ON NEW CALLAN PARK

The quiet hills of Callan Park west of South San Francisco have figuratively erupted like the famed volcano Krakatoa since the City Council's final vote to annex the tract two weeks ago.

An organization calling itself The City Taxpayers' Association has launched an unexpected campaign for a referendum vote on the annexation with apparent success thus far

At last report, with 42 petitions in circulation, the group had garnered approximately 1200 signatures, according to James Claar, one of the association's leaders. Only 1400 to 1500 are needed to force a special referendum vote, however, the group is aiming for 2000, Claar said.

Others associated with the group include: George Keller and Vincent Porrazzo, both of Brentwood, and Leo Cortesi, realtor and son of Councilman Emilio Cortesi who registered the single "no" vote against the annexation.

The association Tuesday issued its first formal statement in the form of a letter to be mailed to voters. The letter states in part: "We feel that the issue (Callan Park annexation) has not been fully and squarely presented to the citizens and we resent the actions of the city council in obliging us to pay the city's operating expenses through the annexation of Callan Park of $702,414 (plus) every single year, and the additional capital expenditure of $842,687 for the city hall space, fire department and parks and recreation.

"We very much dislike the actions of the council forcing us to accept its position against the thousand of voters who are qualified to do a little thinking on their own. The council has acted as though it was the absolute owner of our city in fee simple."

The letter goes on to state that the committee believes the people should be given a right to vote on the matter. It adds that the group knows of no provisions having been made to protect homeowners against damage to land and streets, etc., plus policing costs caused by the trucking and hauling operation during the 10 year development period.

The letter also makes the following reference: "It would be well to bear in mind that the city of Daly City by a referendum vote refused to annex this same tract. How then could it be a 'good deal' for South San Francisco?"

On Monday night, while this letter was being written, the volcano poured forth plenty of "lava" during the regular meeting of the city council.

## Public Hearing To Be Held On 'Home Trust Fund' Bill May 3

State Senator Richard J. Dolwig has announced that a hearing on S.B. 1015 — the measure he introduced to help homeowners of Rollingwood, Crestmoor, Loma Linda, St. Francis Heights, Linda Mar and elsewhere in the State— will be held May 3 at 1 p.m. in Sacramento.

Dolwig is chairman of the Senate Insurance and Financial Institutions Committee which will hold the hearing.

The bill is designed to correct the absence-of-trust-fund-statement situation which is believed to have led to excessive house payment rises— some as high as $36 a month— in these areas.

More than 200 Rollingwood homeowners petitioned the State Division of Real Estate for a probe late in February after the new house payments were set up without accompanying statement cards explaining the basis for the raises. Last week, as a result of the State's intercession, 180 of the petitioners started receiving complete balance sheets of their trust fund accounts since inception.

A Greyhound chartered bus will leave the Rollingwood School area at 7 a.m., May 3, to take all interested homeowners from San Bruno, South San Francisco, Daly City and Pacifica areas affected to the hearing in Sacramento. Transportation will cost $3.25 per person for the round trip. Prospective passengers should contact JU 9-1305 or post their fares at 2510 Maywood Drive, San Bruno, not later than Tuesday, April 25.

## JS Speed Zones To Be Increased

**New speed zones are being established along Junipero Serra boulevard between Daly City and South San Francisco.**

**The existing 35 MPH zone between 91st Street at the city limit of Daly City and about 500 feet south of Eastmoor Avenue is being raised to 45 MPH.**

**Adjoining this new zone will be a new 55 MPH zone extending to 0.2 mile north of Hickey Boulevard where the speed limit will be decreased to 35 MPH to conform to the zone now in effect.**

**Revision of the speed zones through this area was the recommendation of the Division of Highways following an engineering and traffic study. The California Highway Patrol concurred in the recommendation and the new zones will become effective with the posting of signs.**

## SEMISCH SAYS 'NOT GUILTY' OF NARCOTICS

Robert Semisch, 22, a truck driver who lives at 6642 Mission street in Daly City, pleaded innocent of two charges of possession of narcotics Tuesday in the Northern District Judicial Court.

Judge Charles Becker set the time for a preliminary hearing as May 2.

Semisch was arrested on Monday, April 11, by Daly City policemen Sgt. Charles Terry and Officer James Doran after his wife, Mary, had reported that he was staggering outside their home in a semi-conscious state.

The officers found Semisch unconscious and prostrate on the living room floor of the home, apparently suffering from an overdose of narcotics. He was roused, then taken to the Community Hospital for examination and treatment.

Extensive medicine and narcotics as well as paraphernalia for both injection and smoking of narcotics were discovered in a basement room of the Semisch home.

Needle marks were found in the left arm of the suspect, the

## $12,000 FIRE STRIKES DC APARTMENT

Fire broke out in an apartment building at 219 Los Banos at 1:28 a.m. Monday morning causing an estimated $12,000 damage, according to Battalion Chief Wayne Alexander of the Daly City Fire Department.

Chief Elmer Kennedy estimated damage to the building at $10,000 and $2,000 to the contents.

No one was injured by the blaze, however, Fireman Garry Curto rescued two of the occupants who were trapped on the second floor.

Mr. and Mrs. Fred Oliver were carried to safety by Curto who put a ladder up to their apartment where they were trapped by a fiery staircase.

The fire started in Apartment G, which is rented to a Mr. and Mrs. Patrick O'Dea. The O'Deas, who were out of town at the time, had apparently loaned the apartment to Steven O'Sullivan.

Cause of the fire was believed to be a cigarette which had fallen onto an overstuffed chair.

Four engine companies—2, 4, 6 and 12—and a squad responded to the alarm which was turned into the police station by a Mr. Blacklock, one of the occupants.

The fire was extinguished by high pressure fog produced by new pumping equipment

(Continued on Page 2)

## DC Mayorship Will Change Monday Nite

**Monday night will be Frank Pacelli's last night as mayor of Daly City.**

**According to a previous agreement, the mayorship is rotated annually.**

**Unless precedent is unexpectedly broken, Vice Mayor Robert St. Clair will move up to mayor and Councilman Joseph Verducci will become vice mayor.**

## Daly City, Colma Schools Slate Open Houses

Daly City and Colma schools during Public Schools Week will once again open wide their doors so that all parents, friends and patrons of the districts will be able to observe what is happening in the classrooms.

Public Schools Week will be from April 24-28 and this year's theme is "The Public School Teacher — Builder of Tomorrow's Leaders."

Each school in Daly City will hold "Open House" to which the entire community is invited. Classrooms will be open with teachers in attendance to welcome all who attend. In addition many schools are planning programs and classroom demonstrations during the day. Personal invitations will be sent home with children.

There will be seventeen elementary schools and three high schools in Daly City holding "Open House" between 7:30 and 9 p.m. Addresses and Open House dates are as follows:

Monday, April 24:

Colma Primary—Hillside and Market streets.

George Washington — 251 Whittier street.

Olympia School—200 Northgate avenue.

Westlake School — 80 Fieldcrest drive.

Tuesday, April 25:

Abraham Lincoln — 1267 Southgate drive.

Benjamin Franklin — 700 Stewart avenue.

Crocker School—649 Bellevue street.

Fernando Rivera—101 Lake Merced boulevard.

Garden Village—208 Garden lane.

General Pershing—631 Hanover street.

Jefferson School — 14 Alemany street.

Vista Grande — 345 Thiers street.

Vista Mar — 725 Southgate (7-8:15).

Woodrow Wilson—43 Miriam street.

Wednesday, April 26:

Colma Upper — 601 Market street

Daniel Webster—425 El Do-

(Continued on Page 2)

## MILLER ASKS ABOUT INACTION ON THREE TRAFFIC REQUESTS

**MONKEY business is hard to resist as proved by the practical joker who propped this toy monkey, complete with banana, apple and a few other appropriate odds and ends, in the palm trees at the top of Mission street last Thursday night. Hanging from the monkey's coat was an envelope on which had been printed the following expression of gratitude to the city for the recent installation of the trees: "Thank you for my natural habitat.' —Staff photo**

A letter of inquiry concerning three requests with regard to traffic and highways in the Daly City area which apparently have not been acknowledged was sent this week to the California Division of Highways in San Francisco by R. Miller of Daly City.

The three major requests were as follows:

1—A request for an increase in the speed limit on U.S. 101 through Daly City to 35 mph.

2—A request that the signals at the two intersections at the top of the hill on U.S. 101 in Daly City be revised to "skip" a phase when not used. Two more green arrows are still needed, one for a right turn and another for through traffic.)

3—A request for some R-54 (three-way) signs at those intersections in Daly City having this type of control. Four such intersections need at least two each.

Miller's letter explains that most all six-lane divided highways as the type going through the city, (as found in most parts of Southern California) are posted at 35 mph. He requests the rise from 30 to 35 mph 'not saying that people should start driving faster," but so that "85 per cent of the motorists who are now going 30 to 35 mph will be within the law."

He adds that a few years ago all majors streets in Los Angeles were increased to 35 mph

(Continued on Page 2)

# YOU DON'T HAVE TO EAT CITRUS FRUITS TO ENJOY THEM IN GARDENS

Any way you look at it, the citrus family is a garden delight. Whether you grow them for food or show, you'll harvest pleasure aplenty from its handsome representatives.

The California Association of Nurserymen points up this dual role of citrus as a reminder to gardeners in the non-citrus belts. You don't have to eat an orange or a grapefruit to enjoy it. The ornamental qualities of the whole family can be enjoyed up and down the state.

In coastal climates too cool to sweeten up an orange, an orange tree full of color can still be yours. And where winter frosts are known to be severe, tubbed dwarf citrus can be tucked into sheltered pockets out of harm's way.

Actually, whether you live in or out of a citrus belt, the dwarf members of the family serve your purpose well. They bear heavily for their size, and the fruit is of standard quality if you can bear to pick and eat such a colorful contribution to the garden.

There was a time when the dwarf Meyer lemon was just about the only dwarf citrus you ever saw. Today, the gardener has his pick of an ever-increasing number of varieties. Oranges, kumquats, limes, mandarins, grapefruit and lemons come your way in container-sized versions of their orchard-grown counterparts. They are bred for home gardening and need only a minimum of space.

By growing these dwarfs in tubs, you can often harvest edible oranges in areas too cool to ripen them properly. The trick is to place the tub against a wall that reflects heat and helps to create more thermal conditions than normally prevail. Unless you are starved for a fresh-picked orange, however, you'll probably elect to leave the crop on your tubbed dwarf. As we noted above, it looks so nice that it's really a shame to harvest it.

**BAYSHORE TRAFFIC**

Traffic on the James Lick Freeway (Bayshore) has increased 138 per cent since 1947, reports the California State Automobile Association.

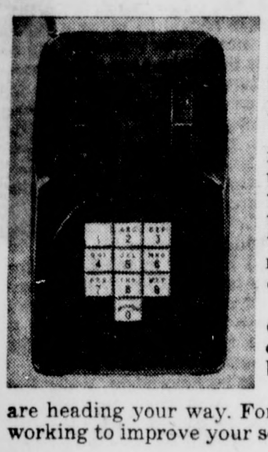
WHAT'S DOING

J. P. Coyne, your Telephone Manager in Daly City



**What would you think** of pushing buttons to make your phone calls? Well, someday you may be doing that instead of twirling a dial.

Telephone people are testing push-button phones like this in various places around the country. The tests show that most folks can push-button a number in five seconds—nearly twice as fast as they dial now.

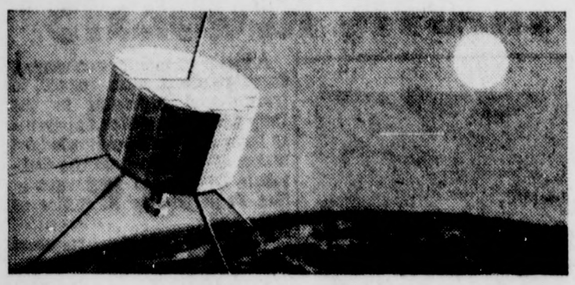
I'm told that if these tests continue to go well our phones of the future may have push buttons instead of a dial.

Lots of new telephone ideas are heading your way. For telephone people are always working to improve your service.

* * * * *

**I noticed** in a telephone company magazine the other day that the Bell Solar Battery was first announced seven years ago this month.

At the time, it was big news that Bell Telephone Laboratories had found a way to turn sunlight directly and efficiently into electricity. But little did we know then that solar batteries would soon make even bigger news—



as a part of satellites in outer space. That's the weather satellite Tiros II in the picture above.

The Bell Solar Batteries on the Tiros II satellite furnish the power to send radio and television messages back to earth.

Telephone research produces a steady flow of new ideas like the Bell Solar Battery. And these ideas are opening new doors in every field of communications.

* * * * *

**You hear about cats** having nine lives, but they're not alone. Phone people have found other things can have extra lives, too.

Maybe you've noticed that after one of our installers puts in a phone he saves the box it came in.

We keep these boxes after phones are installed and use them over and over. Every re-use saves 8¢.

Doesn't sound like much but multiplied thousands of times a month, this really mounts up. It's savings like this that help us give you more for your telephone dollar.

Pacific Telephone

# Callan Park

(Continued from Page 1)

It all began with when James Conn of 103 Toyon Ave. stepped up to the microphone and suggested that the city should formulate and distribute an explanatory letter on the annexation issue to the entire electorate.

This was picked up by Councilman Leo Ryan who moved that such a letter be drawn at a cost estimated by City Clerk Arthur Rodondi to be approximately $500.

This set off Councilman Cortesi who insisted that this would be a waste of taxpayers' money, arguing that "I am not against Callan but this should go to a referendum so people know what they do and vote it. We never met once. The council should go out and tell the people what it is doing."

Refutation was then made by Mayor Andrew Rocca to an accusation by Dave Ratto at a recent public hearing that a report on the proposed annexation made by William Spangler Jr., city master plan consultant, was "erroneous."

In the course of the incessant haggling, during which Cortesi and the remainder of the council constantly failed to communicate, Joseph Powers, a representative of the Serra Highlands Improvement Association, who claimed to be a former campaigner for Cortesi, presented as evidence a "Report to the People" alledgedly distributed during a campaign by Cortesi. The report quoted Cortesi as saying at the time that he had repeatedly warned the council about its inaction concerning Callan Park and added that his advice on annexation of the area had merely "fallen on deaf ears."

Cortesi insisted that this was not the original document, denied that Powers had ever campaigned for him and, in fact, at one point, openly called him "a liar."

The question on the motion was asked finally and despite a "no" vote from Cortesi, it was decided to issue a public letter at city expense explaining the details of the annexation and warning against uninformed citizens signing the petition.

Ryan also introduced a motion for a council oath as follows: "I have never received any money from nor have any monetary interest in the Callan Park organization. I have never been approached by the Callans nor have ever approached them for money in connection with the annexation. And I have no intention of ever doing so. In other words, I have no private interest whatsoever in the issue."

Cortesi's was the solitary "no" vote again.

It was at this point that City Attorney John Noonan, noticeably angry over the wrangling, stood up and launched into a factual, financial explanation of what will happen should the referendum petition be filed.

"In the first place," Noonan said, "under state law you can't ever make a subdivider provide either sewers or parks. And the voter is not in a position to negotiate this type of agreement. We have delicately drawn an agreement with the Callans not on annexation but on other considerations. It took us three solid months of constant work to accomplish this and now you talk about throwing it out in five minutes."

He then proceded to make these points: If the petitions are filed and a vote is forced, the city under the agreements already ratified, stands regardless of a "yes" or "no" vote, to lose the following: $355,000 for sewer development of existing lines; $300,000 in land and money to acquire land for recreational purposes and other public uses; $672,300 in sewer plant fees during the bonded period, based on development of Callan Park on 50 foot lots; $618,208.66 in flood control district monies; and $29,979.78 as the Callan share of the city's present indebtedness.

In other words, Noonan insisted, the city stands to forfeit a grand total of $1,975,018.44 (independent of sales tax benefits) if the vote is forced.

Both Tom and Mike Callan were present at the meeting. In answer to this challenge from Ted Everson, a citizen: "Did you not, Mr. Callan, tell me that the way the city was handling this annexation was hurting you?" Tom Callan replied, "I believe I said that 'we are being hurt by people we don't know.'"

Mayor Rocca explained that the Callans were willing to make certain agreements with the city because time is of the essence for them and they know that South San Francisco is an efficiently operated city with complete services available for a development the size of Callan Park.

"I have never known a case where there wasn't some good to be gained on both sides," he said.

The petitions must be filed prior to the completion date of the 30-day waiting period on the annexation resolution, May 8.

Leo Cortesi said the committee plans to file by Monday, April 24.

# Miller Asks

(Continued from Page 1)

and that U.S. 101 is this type of street.

Concerning the three-way signal signs, Miller asserts "there is absolutely no excuse for these signs not being posted. They can be found all over the Los Angeles area. San Francisco has a few posted. A good example can be found on Marina Boulevard near Scott Street on the north side of the city.

"Anytime a motorist has to sit more than 65 seconds through a red light," he went on, "there should be a sign to indicate it . . . Delayed Signal or Three-Way Signal . . . or something."

He added that this is "just common sense."

# $12,000 Fire

(Continued from Page 1)

purchased last year.

Chief Kennedy and Battalion Chief Mel Hanson supervised the operations.

The building is owned by H. R. Miller of 279 Irvington St. Other occupants include: Miss Frances Steiner, Donald Hooker, Mr. Russell and Mrs. Blacklock.

# Queen Contest

(Continued from Page 1)

obtained by calling him at PL 5-6805. He added that they will be made available to merchants throughout the city and that the locations where they may be picked up will be announced next week.

Final judging in the contest will be held at a Queens' dinner at 7 p.m., June 8, at the Steak Pit.

Martin said that, in addition to the gold ensembles, the Chamber of Commerce will present the two winners with a variety of valuable prizes.

## Dime-A-Dip Dinner At Broadmoor Church

A Dime-A-Dip Dinner will be served cafeteria style from 6 p.m. to 7 p.m. at the Broadmoor Presbyterian Church this Saturday, April 22. Complete meals may be secured for as low as 60 cents. A short program of entertainment will follow the dinner hour on the international theme.

This event is put on for everyone interested by the High School Fellowship of which Vicky Guz is president and Mr. and Mrs. Jack Spratt are the advisors. Tim Tweedie is chairman for the arrangements of the dinner program.

# Incumbents

(Continued from Page 1)

had 4,061. Dr. Miles made it with 3,281 votes, winning over William Croman of Pacifica, his nearest competitor, by a total vote of 326 votes.

Croman won the Laguna Salada District (Pacifica area) by winning it with 1,503 to 1,151 for Dr. Miles, but the latter won the election on the strength of the big votes he received from the Jefferson, Brisbane and Bayshore Districts. Croman received a total of 2,955 votes, 326 less than the 3,281 given Dr. Miles.

Mrs. Mullen had no trouble in reclaiming her seat on the elementary board. She outpolled the others with 3,658 votes; Noonan clinched 3,422 for second place, wih Dr. Calvert receiving 2,765 votes for third place.

The voting in Tuesday's election was about 5 per cent higher than in previous school board elections. Dr. David Shapiro, assistant superintendent of the Jefferson Elementary School District, said he believed this was due to the novelty of the new type voting machines and the controversial proposed county charter changes.

The average turnout of voters from each of Jefferson District's 29 precincts was between 22 and 23 per cent of those eligible to vote.

Precinct 18 (Garden Village area) had the highest turnout -- 42 per cent -- when 96 of its eligible voters visited the polls. The lowest was Precinct 14, voting at the Westlake Improvement Assn., which tallied a mere 14, 1 per cent of its eligible voters. (This area takes in a large apartment house area). In this precinct only 135 persons out of 935 eligible went to the polls.

Returns came into the district offices slowly at first, but gradually built up momentum due to the new voting procedure. Returns were coming in rapidly by 8:45 p.m. It was all over by 9:30 p.m.

The trend toward reelection of all incumbents was established early in the counting. All five established big votes of confidence and decisive leads over their challengers early in the evening. There was never any doubt they wouldn't be reelected. The race then became one of seeing who could take first spot in the number of votes received.

Following are the official grand totals for all the candidates:

Jefferson High School District

Fontana, 4,875; Eason, 4,526; Ingersoll, 4,061; Miles, 3,281; Croman, 2,955; Burkhard, 2,526; Nolli, 1,875; Prezant, 1,416; Stein, 1,261.

Jefferson Elementary School District:

Mullen, 3,658; Noonan, 3,432; Calvert, 2,765; Mangean, 2,221; Prezant, 1,137; Albert, 902.

The controversial proposed amendments to the San Mateo County Charter, with the exception of Proposition B, went down to resounding defeat in Tuesday's county-wide election.

Proposition B, which garnered a Yes vote of 2397 to top a No vote of 2388 by only nine slim votes, calls for the striking of obsolete and superseded portions of the charter.

Propositions D-E-F-I, which threatened to take several county offices away from the electorate and make them appointive, were firmly rejected by voters.

These particular issues had caused much concern throughout the county and for the most part had been opposed editorially by county newspapers.

Voters in the Daly City area cast out all of the 14 proposed amendments. Both Pacifica and South San Francisco voted in favor of Proposition B only.

The breakdown went like this:

Proposition A, which would provide for a redistricting commission after each Federal Census and make salaries uniform for the Board of Supervisors—Yes, 23891; No, 29,688.

Proposition B, which would eliminate obsolete and superseded portions of the charter—Yes, 27,783; No, 25,486.

Proposition C, which calls for revisions in duties of most high county elective officials—Yes, 18,954; No, 30,888.

Proposition D, which would have split the Department of Public Health and Welfare into two branches—Yes, 11,840; No, 41,082.

Proposition E, which would have made appointive the offices of coroner, county clerk, engineer, recorder, tax collector and treasurer—Yes, 8,941; No, 42,569.

Proposition F, which would have allowed the Board of Supervisors to appoint the members of the Civil Service Board, the Board of Public Health and the Parks and Recreation Commission — Yes, 12,787; No, 38,120.

Proposition G, which would have eliminated requirements of written charges at public hearings prior to suspension of a non-civil service county officer—Yes, 15,020; No 36,778.

Proposition H, to eliminate prohibition of any elective official increasing his pay while serving a term—Yes, 15,423, No, 35,713.

Proposition I, which would have revised the civil service commission's hours and duties, Yes, 13,391; No, 36,732.

Proposition J, which would have increased the annual budget of the county planning commission — Yes, 18,070; No, 31,584.

Proposition K, to relax restriction on who can hold county appointive offices and cut down prohibition of elective officials doing personal work during county hours—Yes, 20,407; No, 30,829.

Proposition L, which would have revised the planning commission hours and duties—Yes, 14,422; No, 36,973.

Proposition M, which would have allowed top county officials to appoint one person who would not have to be cleared by the civil service commission, as "confidential aides" — Yes, 15,642; No, 35,515.

Proposition N, to provide for the election of members of the County Board of Education and an appointive school superintendent — Yes, 20,596; No, 30,624.

**MRS. MAX WAHL, standing center, back row, stops long enough from her busy schedule of making plans for next Sunday's canvass for the Jewish Welfare Federation, to pose with four other ladies planning the drive for San Francisco neighborhoods. **Old trash littering your back yard or garage?**

**This week is your chance to get rid of it—free.**

**In conjunction with Home Improvement Week, the Daly City Scavenger Co. is offering the free use of its fill and cover dump from April 19-26.**

**President Al Sereni said, "We are happy to be able to contribute something to make this Home Improvement Week in Daly City more successful."**

**The dump, located on the old Coast highway, may be reached by going south on Skyline to Pacifica, then north on the old Ocean Shore highway.**

**Sereni said that any rubbish, garden trimmings or other refuse, whether a box load or a trailer load, may be deposited at the dump free of charge during Home Improvement Week.**

**Sereni emphasized, however, that the free offer is limited to Daly City, Colma and Broadmoor residents, only. Those bringing trash to the site for free dumping must establish residence in these areas either through a driver's license or some other well recognized means of identification.**

**The dump will be open free from 7 a.m. to 5 p.m., Wednesday through Wednesday, April 19-26.**

The City of Daly City and the Daly City Chamber of Commerce, co-sponsors of the two-color front cover of the Home Improvement Section, urge local residents to "Check the pages of this section for bright new ideas . . . for the services and the products you will need to modernize your home . . . for information on long-lasting materials. Each of these merchants' showrooms is an exhibit of importance in this city-wide effort."

# Semisch Says

(Continued from Page 1)

hospital report revealed.

Chief Roland Petrocchi said in his report that it is possible that much of the material found in Semisch's possession could be stolen goods. He referred to a rash of recent drug store robberies throughout the San Francisco area. This aspect of the case is still under investigation.

# GROUND BROKEN FOR $200,000 WELLMAN PLANT

Ground was broken recently in South San Francisco's Airport boulevard Industrial Park for a new building for the S. K. Wellman Co., long-time makers of metallic friction materials in this area.

The company's Northern California and Western Nevada sales and distribution facilities will be located in the new building.

This marks the 18th time a large industrial operation has established facilities in this industrial park, according to developer Louis Poletti. The park was originally opened three years ago.

Construction is to begin at once on the new $200,000 plant, according to G. F. Mathews Jr., branch manager for the Wellman Co. Location is at 508 Airport boulevard, which is slightly north of the present United Air Lines maintenance base.

Previously, the firm was headquartered in San Francisco for this area. Its factory and main offices are in Bedford, Ohio.

The new building is expected to be completed by June 1.

# POEM CONTEST WINNERS TOLD; MANY AWARDED

Winners in the recent Creative Poetry Contest sponsored by Court St. Mary, No. 1155, Catholic Daughters of America, Daly City, were announced this week by Mrs. James O'Reilly, chairman of the education program for the Court.

Awards were presented in Division I, consisting of Grades 4, 5, and 6, to: Dan Hutter, first place, of Our Lady of Mercy School in Westlake; Marilyn Flatley, second place, of St. Emydius School, San Francisco, and James Dyer, third place, also of St. Emydius School.

Division II—Grades 7, 8 and 9: Edward Smyth, first place, of St. Emydius School; Nancy Salvemini, second place, of Our Lady of Mercy School; Christine Hughes, third place, of the Immaculate Conception Academy, San Francisco.

Division III — Grades 10, 11 and 12: Coleen Cottrell, first place; Charline Larson, second place, and Judy Smith, third place awards. All are students of the Immaculate Conception Academy.

The papers in each division have been forwarded to Mrs. Nelsie DeSousa, State Chairman of Education for the Catholic Daughters, for further judging in competition with papers from throughout the state. These winners will be announced att he State Conference, to be held at Pasadena, on May 3rd, after which they go on to National competition for the top prize of $100, these to be announced in mid-August.

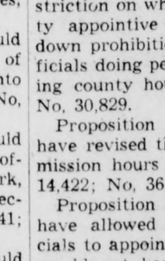
The award for the Essay on Communism went to Lorraine M. McDonnell of Our Lady of Mercy School and her entry also was sent on for state competition.

## Girl Scouts Plan For Summer Camps

This week the Girl Scouts of Daly City-Colma are planning ahead for their place in the summer sun. The girls are registering for day camps starting April 17 and for attendance at established camps on April 20.

The types of day camping provided for the girls fall into three categories. Brownie Day Camp is for any girl entering the 3rd or 4th grade who registered as a Brownie Scout prior to April 1. Intermediate day camp is for the registered Brownie or Intermediate scout who is entering the 5th or 6th grade in the fall, and the Adventure Camp is for any registered Girl Scout who is entering 7th, 8th or 9th grade.

Mrs. John M. House of Daly City and Mrs. Allan F. Mori of Colma are on the camping committee.



**BEAUTIFUL vista has been created in this garden walk setting by well-thought-out plantings of colorful flowers and shrubbery happily highlighted by the stark white of the bark of the birch trees. Photo courtesy of American Association of Nurserymen.**

### PASTE A DOLLAR BILL ON YOUR WALL

We are now feeling the effects of a generation of extravagance and inflation which is politely called a recession. The causes of it are paying for work not done, paying for over-production of crops which could not be sold, higher and higher taxes, federal and state debt, skyrocketing peacetime federal spending above defense and promotion of the welfare state philosophy.

It doesn't take a Sherlock Holmes to discover that our national policies are penalizing savings, pricing our products out of world markets and constantly increasing the cost of living, as the purchasing power of the dollar is driven down.

Paste a dollar bill on your wall and mark off half of it with a red line for purchasing power already lost. Then as taxes and government debt, local and federal, go higher and higher, mark off more of it with red lines as the dollar value decreases. Also depreciate the purchasing power of your insurance, your savings account, your pension or any other fixed dollar asset as you add red lines to the dollar bill on your wall.

The future value of the dollar rests with the people through the interest they take in politics, labor, industry and economic policies.

### WHO HAS TO HUSTLE!

According to some American spokesmen, we're going to have to hustle mighty hard if we're to prevent the Soviet economy from overtaking and passing ours. And, according to some Kremlin spokesmen, the Soviets are going to do just that in the next ten or fifteen or twenty years or some other such period of time.

What can be said to that, on the basis of the known facts, is that the hustle will have to be principally provided by the Soviets — and to a miraculous degree.

For instance, the American Petroleum Institute points out that to make our living standards approximate those of the Soviet Union, we'd have to get rid of four out of five of our homes, nine out of ten telephones, fourteen out of fifteen miles of paved roads, and nineteen out of every twenty cars and trucks. We're that far ahead.

This is no argument for complacency — or for underestimating Soviet achievements in science, industry or any other field. But it makes no sense to minimize our own achievements — or to ignore the fact that the American system has done more for more people than any other economic system known to man.

### LONG MAY IT FLY

The following appears at the masthead of a Texas newpaper:

"The Pecos Independent is a non-partisan, conservative newspaper dedicated to promoting the individual's freedom and the growth of Pecos and West Texas . . . We subscribe to the belief that freedom is a gift of God and not a political grant. We believe that freedom is consistent only with Christianity We believe that our welfare shall depend on our own intiative and ability; we believe in maintaining a society in which the citizen has fullest individual freedom and the government's primary and paramount role is the protection of that freedom."

In this objective lies the freedom of the press.

---

"The risk in giving bureaucrats enough rope to hang themselves is that they'd try to put the government in the rope business!" Montana Power Company.

---

Senator Barry Goldwater writes, in National Review: "Armament races throughout history have always been a symptom of international friction—not a cause of it. Friction does not disappear by rival nations suddenly deciding to turn their swords into ploughshares. No nation in its right mind will give up the means of defending itself without first making sure that hostile powers are no longer in a position to threaten it. The Communist leaders are, of course, in their right minds. They may preach general disarmament for propaganda purposes. They may also seriously promote mutual disarmament in certain weapons in the knowledge that their superior strength in other weapons would leave them, on balance, decisively stronger than the West . . . If all nuclear weapons suddenly ceased to exist, much of the world would immediately be laid open to conquest by the masses of Russian and Chinese manpower."

---

From The Wall Street Journal: ". . . we wonder what a vista would open up for the American economy if, every single year, the Government let the people keep a few more billions of dollars to spend on their homes, their cars, their clothes and their pleasures. Might we not find that this enlargement of the private-income stream would not only speed up the factories but keep them humming?"

### *Rivera PTA To Hold Officer Installation*

Fernando Rivera PTA will have its next meeting Tuesday evening, April 25 at 7:30 p.m.

The nominating committee: Mrs. Marie Poggio, chairman, assisted by Mrs. K. G. Poulos and Mrs. Mildred Garrett will present the following slate of officers to be elected for the coming year: President, Donald McKenzie; vice president, Rev. E. Clark Robb; honorable vice president, Melvin Thayer; financial secretary, Mrs. T. Goldbach; treasurer, Mrs. T. Defeterios; recording secretary, Mrs. A. Bolger; corresponding secretary, Mrs. Grace Budea; historian, Mrs. A. Piercy, and auditor, John Luppino.

This meeting is being held in connection with the schools open house program and all parents are invited to attend.

After a short PTA meeting and installation of officers, a program will be presented by the Fernando Rivera chorus under the direction of Mrs. P. Hackett. Then parents will have the opportunity to visit each classroom, greet the teacher and see some of the things the boys and girls have done.

**NINETEEN students, members of the advanced stenographic and transcription classes of Westmoor High School in Daly City, visited the Pacific Coast Head Office of the Metropolitan Life Insurance Company in San Francisco on March 23. They were accompanied by their instructor, Mrs. Kay Ravenal. The purpose of the visit was to show how the business principles they have been studying are put into actual practice. The visitors are pictured in the Garden of the Metropolitan Building in San Francisco. Front row, left to right: Vicky Phillips, Gail MacDonald, Valerie Schatzle, Patricia Montemayor, Joyce Navarro, Carolyn Efsaif and Fane Peterson. Center row: Brenda Dias, Lila Diamond, Charlene Adams, Donna Falgiano, Judy Krueger, Toni Neves and Mrs. Ravenal. Third row: Sun Garrett, Gayle Randall, Barbara Churchey, Carole Miller, Linda Anderson and Caryn Charrier.**

# SCHUMACHER, JEAN FASSLER ELECTED TO PACIFICA POSTS

Pacifica's City Council elected itself a new mayor last week and it appeared that by accepting the role of vice-mayor, the city's very first mayor might be treading the comeback trail.

Gerry Schumacher, a business executive of 915 Serene drive, was named to the city's top political position while Mrs. Jean Fassler, who served as mayor at the time of the city's incorporation, was picked to fill the vice mayorship.

The question of the annual change in mayors, not on the official council agenda for the evening, was broached by Councilman Donald Miller.

This was followed by a lengthy discussion as to whether the matter should be tackled then or later, pending public notification.

Miller finally moved for the appointment of Schumacher and Mrs. Fassler and it was seconded by Mrs. Fassler. The vote ran 3 to 1 in favor of the new team. Mayor Harold Feyge and Councilman George Mason both abstained on grounds that they were not in disagreement with the persons named for the post but only with the nasty manner in which the election was taking place.

Previously, ex-Mayor Feyge had expressed his determination to continue on as mayor for a second term. And Mason had made it public that he would be willing to serve in the post if appointed.

Both new officials were placed in office that night.

Schumacher, office manager for the S. K. Wellman Co. in San Francisco, has long been active in Pacifica government. In the past he chairmanned the committee which adopted the present city seal; served on the original city committee to initiate incorporation; headed the city's first parade committee; was co-chairman of the committee which formulated the city's original ordinances; was chairman for 3½ years of the transportation committee; co-chairman of the apartment house study committee which has effected many changes in city zoning.

This is his second term as councilman. His term will expire in one year and he plans now not to run again.

He is affiliated with several veterans groups, having twice been commander of the Haight Ashbury Post of the American Legion; founder of the Lindemar Post in Pacifica; a member of the Disabled American Veterans (he served 3½ years with the Air Force during World War II).

He attended Stanford Unievrsity, studying engineering, and is a member of two honorary societies: Phi Theta Kappa and Phi Ro Pi, for scholarship and debate.

His wife's name is Julia and his two daughters are Barbara, 7, and Geraldine, 9.

In accepting his new role, Schumacher said: "I hope that both Daly City and Pacifica can enjoy a fine relationship and work together to solve their problems and that if we do have differences we can work to resolve them for the benefit of the majority."

He added that "the members of this city council are to be commended for the high degree of cooperation they have exhibited through these past years."

Mrs. Jean Fassler, 5400 Coast Highway, has been active in city government ever since she became the city's first leader at the time of incorporation. She has worked her way into "politics," she says, through her experience with dozens of community activities and undertakings." She has lived in the Pacifica area for the past 18

Among her credits are the following: chairman of the city's hospital committee; first vice president of the San Mateo Girl Scout Council; member of the board of directors of the Shoreline Planning Assn., State of California, and the Visiting Nurses Assn.; member of the Foster Home Recruit group working with Hillcrest; member of the Federated Women of Pacifica, of Beta Sigma Phi and Miz-Pah, both women's service clubs; member of the Presbyterian Church of Pedro Valley, and of Eastern Star.

Married to Joseph Fassler. She has two sons, Wally, 24 and Gregory, 13, and a daughter, Lynn, 10.

She told this newspaper that the most important community project in her mind is the completion of a freeway between Pacifica and Bayshore. She added that she has always tried to be a better liasion between all cities of the northern county, working for more efficiency and better planning.

**OLD Daly City library building is shown in this picture taken shortly after it had been opened on Feb. 19, 1916 as a branch of the San Mateo County Library.**

# FIRST DC LIBRARY DATES BACK TO 1916, BUILDING IS STILL IN USE

Daly City got its first real library back in February of 1916 when the then San Mateo County Librarian Anne Bell Bailey announced the opening of a branch of the San Mateo County Library here.

The first building was one story, single room structure which still serves as the children's room in the library at 6351 Mission street.

Part of the tasks assigned to the librarians who worked in this building was to care for the grounds. Daily the librarians watered flowers that grew at the rear of the building. Although the flower beds have not been cared for for years, some flowers still grow.

In 1938 an addition that tripled the size of the library was placed in front of the original library where lawn and flower beds had been. This building continues to serve the people of Daly City as the "Mission Street Library."

This library served as the only library in the ever growing Daly City until 1956 when a branch was opened in a store within the Westlake Shopping Center.

On March 19, 1961, the City dedicated a new library at 275 Southgate. This building contains 10,500 square feet. It houses a large reading room, a children's section, a collection of reproductions of famous paintings, a record collection, and the headquarters of the Daly City Public Library System.

It is a singular fact that every building erected in Daly City as a library still serves in that capacity.

### DC Mormon Church To Conduct Tours

The Church of Jesus Christ of Latter-day Saints (Mormon) invites all residents in the vicinity of Daly City to see its new Chapel and Stake Center prior to its dedication and formal use as a place of worship.

Guided tours will be conducted during the next three weekends, April 22 and 23, 29 and 30, and May 6 and 7, from 10 a.m. until 9 p.m.

The structure costing approximately one-half million dollars intended to accommodate 5000 persons is located at "Hill-Top" Daly City on the corner of Brunswick and Hillside boulevards, one-half block east of Mission street.

# ACCESS SOUGHT ACROSS REAR OF FIRE DEPT.

The Pacifica City Council was apprised last week of a project which seeks direct access across the rear of the city's fire department for purposes of customer parking.

The proposed project is a medical-dental office and drug store which is to be constructed at the southwest corner of Adobe and Lindemar in Lindemar, according to City Manager Karl Baldwin.

The building is a Sea Village Associates project.

The matter was introduced first to the council to sound out its reactions to such a request in advance of formal application.

Baldwin said that the council was divided in its opinion concerning the request.

The history of the entire project is a controversial one, Baldwin explained. Originally the property involved had to be rezoned from residential to C-1. In order to build the medical-dental center on it even now a use permit must be applied for first. Sea Village has not yet done this, he added.

The council took no action on the matter which first must be considered by the Planning Commission.

# PANEL SET FOR SSF SCHOOLS NEXT TUESDAY

A panel discussion on guidance and counseling in the South San Francisco School District will be held on Tuesday, April 25, at 7:30 in Room E-3 of the South San Francisco High School.

Panel members will include: Miss Bonnie Howarth, Jr. High School Counselor; Romolo Braschi, principal, Sunshine Gardens Elementary School; Robert Howe, head counselor, So. San Francisco High School; moderator; Ralph O'Neill, school psychologist for So. San Francisco schools.

The panel members will discuss the present guidance program in the So. San Francisco school as related to their school level, including new things that are being tried for the first time, and what is being done to meet the needs of many types of students. Group counseling at the high school will be discussed as well as programs for high ability students.

The schools face many problems in guidance today in not only the school system here but all school systems in the United States. A few problems including testing, failing students, delinquent students, and academically talented students will be discussed by each panel member.

Guidance not only includes counseling but testing, record keeping, and follow-up studies of students. The panel members will relate these separate parts of guidance to future plans including possibilities of large-scale electronic data processing, increased personnel in elementary and junior high schools, and increased availability of referral services for students having special problems.

Following the panel presentation, the audience will be encouraged to ask questions of the panel members.

# KNUDSON DEATH RULED DROWNING

The death last week of Edward Yule Knudson, 48, on the beach of Mori's Pt. in Pacifica, first believed to be the result of a stroke, was ruled a drowning this week by the County Coroner's office, according to Joseph McPheters, coroner's deputy.

Knudson, who lived at 120 Sherwood way in South San Francisco and who was employed as a merchant seaman, was walking the beach near the point at the time of the accident.

His wife told Pacifica police that her husband was knocked down by a sudden wave while they were walking at the water's edge. She said the wave washed him out to sea, then back onto shore.

Mrs. Knudson's cries for help were heard by Arthur Indie of 460 Vienna street, San Francisco, who attempted to revive Knudson by mouth-to-mouth resuscitation. Failing this, Indie called the police who responded with an ambulance.

The victim was rushed to Millbrae Medical Center where he was pronounced dead on arrival.

Officers assisting in the case were Jack Foster, Ed Alrich, Chuck Fitzgerald, Ray Shipley, plus two firemen, Cal Hinton and volunteer Jerry Yorks.

McPheters reported death by suffocation caused by water in the lungs.

# ROZZI ELECTED SSF MAYOR; AHERN STILL VM

Guido Rozzi was elected mayor of South Francisco Monday night to succeed outgoing Mayor Andrew Rocca.

Councilman Patrick Ahern was re-elected vice mayor.

Rozzi previously was mayor of the city prior to Rocca who apparently broke precedent by holding down two consecutive terms.

Only dissenting vote against Rozzi came from Councilman Emilio Cortesi who argued that the office should be rotated annually.

Both Councilmen Leo Ryan and Ahern, neither of whom have been mayor, declined the position on grounds that they did not have sufficient time to give to the demands of the job.

Rozzi was nominated by Rocca.

In accepting the mayorship for the second time, Rozzi said, "Our major objective now is to get together with the school district to work out all necessary agreements."

# SM County Demo Group Passes 2 Resolutions

Two resolutions were passed late last week by the San Mateo County Council of Democratic Clubs, according to W. Mark Sullivan, chairman of the continuing committee of county government.

One resolves "that the county amend its charter to provide that each supervisor shall be nominated and elected only by the electors of the supervisorial district which he represents."

At present, supervisors are elected by the county at large.

The second resolution asks that "the County amend its charter to provide that it be mandatory for the Board of Supervisors to set boundaries of supervisorial districts within three years after each decennial Federal Census so that no supervisorial district will have less than 17 per cent nor more than 23 per cent of the total County pouplation."

The supervisorial districts apparently have not been redistricted since 1930 at which time the total population of San Mateo County was 77,405. It is now 445,000.

### Cub Pack Parents To Present Dance

Amidst mau maus, leis, and palm trees, the parents of Cub Pack 248 are planning a Hawaiian motif dance on Saturday night, at 8 p.m.

The dance will be held at the Broadmoor Community Center, Maddux and White streets. Games, prizes, and refreshments will be included. Attire a la Hawaiian will be in order, but not a necessity. Ex-parents of Cub Pack 248 are invited.

## Robert Eskew's . . . *WORDS TO READ BY*

**Monday night we dropped down to South City to catch the "Emilio Cortesi Show."**

This has nothing to do with live television or a night club act or even a one-man little theater presentation.

It's simply a complex and lively little drama called "City Government" featuring a five man cast and the usual entourage of technicians and assistants.

But make no mistake—on this particular night, Mr. Cortesi was indisputably the star (or villain) of the three-hour melodrama.

**Mr. Cortesi is the one city councilman out of five who tend South San Francisco's civic business who voted a rather forceful "no" on the recent Callan Park annexation issue.**

He was still voting "no, no, no," Monday night when the matter again hit the political fan.

Intermittently throughout the night's haggling a young man named Mr. Powers kept rising or taking to the mike to challenge Mr. Cortesi on what Mr. Powers feels is now a reversal of a stand Cortesi once took in high favor of annexing Callan Park.

**Throughout the onslaught of Mr. Cortesi's counter epithet Mr. Powers remained relatively cool and collected and was at all times highly articulate. I was impressed.**

But it wasn't until the whole shootin' match was over that I was able to get to him to find out his first name. I called to him as he was leaving the room, introduced myself, then started to ask his name when he quite wryly interrupted me.

"So you're Bob Eskew?" he said. "And tell me this—when were you in the Coast Guard?" I answered. "And did you or did you not take boots at Government Island?" I did indeed, I said. "And were you or were you not in Company C?" I was indeed. "And just who is it you've been looking for who used to take you home with him and feast you at the old Daly City Creamery . . . Little Joe who?"

"That's just it," I said stupidly, "I can't remember his last . . ."

Comes then the crashing dawn at 11:30 p.m.

**"Joe!" I hollered (outdoing Mr. Cortesi) "Joe Powers! Good Lord, man, it really is you. It's little Joe Powers, the girls and goodies man from old DC! I've hit the jackpot!"**

And so it came to pass that an old tale in a new column about the days of yore and a long lost friend, buddy, mate and pal had paid a dividend beyond my fondest hopes.

One of these Saturday nights soon I'm invited over to Little Joe's to meet "Doll" and to imbibe a few draughts of something a trifle more heady that those sweet liquors we once quaffed at the creamery and who knows, maybe to talk the night away about how it was then and how terribly much the world seems to have changed in 15 brief years.

Never mind out there—I found him myself.

BOB WELLMAN, leader of the orchestra in the Lochinvar Room of the Mark Hopkins Hotel, presents his latest LP recording to Frank Carrol, chairman of the Our Lady of Mercy Festival. The Festival will be staged April 27 through 30. LP's will be among the prizes.

### First Aid Course Is To Be Offered

A five-week Red Cross First Air course is to be organized beginning in the near future in the multi-purpose room of the Crocker School, 631 Bellevue avenue from 7:30 p.m. to 9:30 p.m. Further plans will be announced at a later date.

Those interested please call Mrs. D. Niskern at JU 4-0633 or Mr. L. Anderson at PL 5-7825.

### Senior Girl Scouts Attend Asilomar Meet

Five Senior Girl Scouts from the Daly City-Colma district attended a two-day conference at Asilomar recently.

Approximately 300 Girl Scouts from the Bay Area including San Mateo County, Marin, Oakland, Berkeley, Diablo, South East Bay, Del Rio, and Yocolano Councils attended the "Wide World Scouting" conference.

The Seniors who attended were: Diane Debrun, Marilyn Lewis, Marsha Ojakian, Joann Spinetti, and Sandra Sorenson.

## City Of Hope's Annual Drive

Formation of a committee of volunteers to spearhead the annual fund drive for the City of Hope on Thursday, June 1 was revealed here this week by Mrs. Louis Mann, North San Mateo County Campaign supervisor.

Honorary chairman include: Chris McKeon, local developer; Jean Fassler, councilwomen of Pacifica, and Supervisor James V. Fitzgerald Jr.

Pledging an all-out effort to help raise the funds necessary for the pilot medical center's humanitarian program, Mrs. Man said that recruitment of workers will continue until campaign ranks are filled.

As a pilot medical center, the City of Hope is devoted to developing new advances in patient care and research. On referral from private physicians, the facility accepts victims of cancer, leukemia and blood, chest, heart and hereditary disorders.

Individuals with time to devote to the house-to-house appeal are urged to contact Mrs. Mann, 103 Fir avenue, South San Francisco, JUno 3-4213.

THOUSANDS of free dressings have been supplied to county cancer victims free of charge through the joint efforts of the Order of Eastern Star and the American Cancer Society, San Mateo county branch. OES volunteers make the necessary surgical dressings, and ACS volunteers distribute them to those in need. At work on the project, left to right, are these local leaders: Mrs. Donald Forster, chairman of the Crystal Springs OES Chapter in San Bruno; Mrs. Clifford G. Parks, Laurel Chapter, San Mateo, District chairman; Mrs. Ralph F. Stalker, Burlingame chapter, district co-chairman; Mrs. W. C. Van Bebber, chairman, Burlingame chapter; Mrs. P. C. Serbian of Millbrae, chairman Laurel chapter, San Mateo.

## EASTERN STAR VOLUNTEERS MAKE DRESSINGS FOR CANCER VICTIMS

From October 1956 to date literally tons of surgical dressings have been made for thousands of San Mateo county cancer victims by the willing hands of men, women and girls working as volunteers under the auspices of the Order of Eastern Star.

And they are donated free of charge as a special service of OES with the combined aid of the San Mateo county branch of the American Cancer Society which distributes the dressings for home use upon request.

There are today in San Mateo county four dressing stations—thre which operate at night and one during the day, reports Mrs. Clifford G. Parks, Laurel chapter OES, San Mateo district chairman.

In South San Francisco from 25 to 35 men and women meet on the first and third Tuesday of every month and spend three hours from 7 to 10 p.m. working away to form a variety of dressings for cancer patients. Special types are made on orders of any physician for a special case.

In San Mateo a group of about 35 meets at the Masonic Temple on the first and third Wednesday of every month from 10 a.m. to 3 p.m.

And in San Mateo also two night stations are in operation —one at the Masonic Temple meets on the second Friday of every month from 7 to 10 p.m. and another meets on the fourth Monday of every month at the Machinists' Hall at B and Gum streets.

Anyone interested in participating is invited to attend, reports Mrs. Parks.

Heading the station operations since 1956 have been Mrs. Charles Hoffman of San Mateo who inaugurated the first station in October of 1956 and directed its operations through 1959.

Mrs. Albert Sterleker, also of San Mateo, took over the local operation in 1959, continuing for a year when Mrs. Parks assumed the office.

Mrs. Sterleker today emphasized that the dressings are available to any cancer victim—not just to members of the Order of Eastern Star or their family.

Sometimes members of the Rainbow Girls lend their helping hands to the special service project. Through the quiet, humanitarian work many friendships are formed and frequently one of the group will treat all to a luncheon. Coffee and dessert is always furnished by the OES chapter.

There are seven chapters in San Mateo county, whose members participate in the dressing station project. Among them is the Crystal Spring chapter in San Bruno, headed by Mrs. Donald Forster, who is district chairman, Laurel chapter of San Mateo, headed by Mrs. Parks; Burlingame chapter, Mrs. Ralph F. Stalker, district co-chairman. Mrs. W. C. Van Bebber is the chairman of the Burlingame chapter and Mrs. P. C. Serbian is the chairman for the Laurel chapter.

In Menlo Park, the Menalto chapter is headed by Mrs. Alexander Nelson, Redwood City's Sequoia chapter work is headed by Mrs. Bruce Bain, chairman, and Mrs. Muriel Herold is chairman for San Carlos.

There are 78 OES dressing stations in California, 13 of them are located in the Bay Area. The materials are purchased with funds contributed by members of OES. Last year a total of $18,000 was spent for materials for dressings. 892 workers last year gave 2,321 hours to make a total of 23,140 dressings.

Mrs. Parks and Mrs. Stalker today voiced their appreciation to the American Cancer Society for its share in the project in processing the dressings through sterilization and in distributing them to those in need. The ACS also maintains a Loan Closet Service which provides any cancer patient in the home with a bed, wheel chair, sick room supplies, etc., without charge.

"The Cancer Society does a wonderful job in helping us to provide this public service," note Mrs. Parks and Mrs. Stalker.

In return Mrs. Edward H. Jenanyan of Redwood City, president of the county branch of ACS emphasizes, "We could never do our part without the tremendous help given our organization by the Order of Eastern Star. They are a dedicated group of volunteers, and take much pride and pleasure in our cooperative task which is dedicated towards aiding cancer victims—wherever and whoever they may be."

## LOCAL BAPTISTS WILL ATTEND OREGON CONFAB

An estimated 6,000 American Baptists delegates and visitors are expected to converge upon Portland, Ore., June 14-18, for the 54th annual meeting of the American Baptist Convention.

The denomination is the fourth largest Baptist body in the United States with over a million-and-a-half members. There are some 27 Baptist groups in the country with a total membership exceeding 18 million.

One of the major business items to come before the delegates at the annual meeting will be the new General Council proposal for reorganization of the denominations administrative life.

For more than half a century, the convention has functioned as a series of separate boards and societies related to the convention as cooperating or associated organizations. Under the new plan, these agencies will retain their present status, except that at the point of long-range planning and policy making they would accept the leadership of the General Council, in which they would be represented, and the American Baptist Convention.

The new General Council plan will be offered as a substitute motion. The three other plans ("Hargroves Plan," the "MacDonald Plan," and the earlier General Council plan) previously presented in annual session will automatically be taken "off the table" for consideration at Portland.

C. Stanton Gallop, Plainfield, Conn., president of the American Baptist Convention, will deliver the presidential address at the opening session of the convention at 8 p.m. June 14. All convention sessions will be at the new Memorial Coliseum.

Among the speakers at the convention sessions will be the Honorable Gov. Mark Hatfield of Oregon; the Rev. Dr. C. E. Carlson, Washington, D. C., executive director, Baptist Joint Committee on Public Affairs; the Rev. Dr. Curtis R. Nims, pastor, First Baptist Church, San Francisco, Calif., who will give the convention sermon.

The Westlake Community Baptist Church, Southgate and Elmwood, is affiliated with the American Baptist Convention. Pastor and Mrs. Hodges and Mr. and Mrs. Ellis Swan will attend the convention with 25 delegates from the Daly City Church.

### FAUCET WASHER CHANGING

If you find it difficult to get at the nut that holds the spindle when you're changing a faucet washer, try using an ordinary spark plug wrench. Its deep socket will solve the problem.

# Society Notes

## Fantasy Daze Nears Gala Opening Event

With all the excitement of a circus, and the color and gaity of a carnival, "Fantasy Daze' will be presented from Thursday, April 27 until Sunday, April 30, in the parish hall of Our Lady of Mercy Church, 1 Elmwood drive, Westlake.

It goes without saying that the months of preparation will climax on the opening day, when the public will witness the dazzling sight of the hall, bedecked with fairy castles and beautifully decorated booths.

The new booth added this year, "Toys for Boys," will offer all sorts of games, as well as big trucks, fire engines, model airplanes and a variety of equipment for the sports enthusiast.

Other booths that the children will find appealing are the hat booth, with it's assortment of hats, caps and bonnets, the gold fish booth, presided over by aquarium keepers, George Snell and William Upp, Panda and doll booths, sure to please the "small fry," and the Grab Bag and Parcel Post booths. The record booth will attract the attention of the teen-agers, with it's large collection of albums and long-play records, and everyone will enjoy the garden, linen, general merchandise, grocery and ham and bacon booths.

The general chairmen for this annual event is Raymond Forcina, assisted by Milton Locke of the Westlake Catholic Men, and Mrs. John Cresalia of the Westlake Catholic Women. The joint floor chairmen are Mrs. Albert Bucci and Mr. Frank Kelechava. Other committee members include:

Secretary, Mrs. Elwin Short; treasurer, Robert Martini and Robert McCloud; dinner, Mrs. James Storman and Frank Pacelli; major investment, William Creegan and Mrs. Frank Clifford; directory, Mrs. James McHugh and Robert Wagner; merchandise, Mrs. James Davis; decorations, Victor Sariotti; construction, George Bigon; publicity, Mrs. John Irvine.

All pictures for the festival were handled by Charles Blagdon, a wire service photographer and member of the Westlake Catholic Men.

On Saturday, April 29, there will be a special children's program, featuring "Mr. Bob" of television fame. Beginning at 2 p.m., "Mr. Bob" and his friends "Happy," "Lester" and "Leroy" will entertain the youngsters with a special show, and assures everyone that he will have plenty of autographed pictures on hand as souvenirs for the children.

After this presentation, a family dinner will be served from 5 to 7 p.m. Roast chicken will be featured on the menu, prepared by Joe's of Westlake. Tickets are still available, and may be had by calling Mrs. James Barrett at PLaza 6-0583. The prices are $1.50 for adults and 50 cents for children.

The hours are as follows:

Thursday: 2 to 5 p.m. and 7 p.m. to midnight; Friday: 7 p.m. to midnight; Saturday: 1 p.m. to midnight; Sunday: 1 p.m. to midnight.

## SM COLLEGE BOARD UP-DATES NORTH CAMPUS BY TWO YEARS

Trustees of the San Mateo Junior College District last week, on the strength of what they heard from a progress report on their revised master plan and unexpected high school enrollments in the north county area, voted to up-date construction on the North Campus site by two years, subsequently opening its doors two years ahead of schedule.

The original plans called for construction to begin in the fall of 1965, with classes scheduled to begin in the fall of 1967. Construction will now begin in the fall of 1963, opening in the fall of 1965 to accommodate an expected 1,000 students.

The board felt that up-dating was necessary after hearing a progress report on a revised 25-year master plan was given by Dist. Supt. Julio L. Bortolozzo.

Probably the biggest single factor behind the board's decision came from Bortolozzo when he told them there are many increases—more than it was originally thought there would be—in the projected enrollments in high schools, and of those students coming out and intending to go on to higher education.

On the basis of these facts, Bortolozzo told the board there was an "intensified" need for the North Campus sooner than when the original master plan was submitted by a citizen's committee in 1956-1957, and also what additional studies on projected enrollments have since that time not adequately predicted.

The north campus will be at Sharp Park road and Skyline boulevard. The district has purchased the site.

The district at present has under construction its number one campus, to be called College Heights. It is located in south central San Mateo and expected to be ready by the fall of 1962. At present, the college is at two locales; one is at Coyote Point, and the other is at Delaware and Peninsular streets in San Mateo. There is no consolidated campus at present.

By the fall of 1965, when both campuses are functioning, it is anticipated that the North campus will accommodate 1,000 students, and the San Mateo campus will be serving an enrollment of 5,000.

There is a total of 3,889 at both present temporary locations. The fall semester enrollment is expected to be upped to 4,300.

# 'Fantasy Daze' Will Interest All Comers

This year's Westlake Festival, "Fantasy Daze," will feature something of interest to everyone, for 48 booths filled to the brim with exciting and unusual gifts will vie for the attention of all who enter the "castle gates."

The little girls will be especially delighted with the doll booth this year, for the women of the parish have outdone themselves in arraying the dolls in unique costumes, such as "Little Bo-Peep," "Snow White," and the perennial favorite, the lovely bride with all her attendants.

Along with the hundreds of dolls adorning the shelves, will be the main prize of the doll booth, a beautiful 36-inch doll, all dressed up in coat and hat and ready to walk into the heart of any little girl.

The linen booth will also have dolls on hand this year, but of a different kind. These will be yarn dolls, done in red and white, and featuring Our Lady of Mercy on their bright felt hats! Tiny tots will love the gay little bibs appliqued with animals, while the more sophisticated little ladies will want one of the cobbler-type aprons "Just like mom's." These are just a few of the many items that will be offered during these four days of fun.

The festival will open on Thursday, April 27 at 2 p.m. and will continue until midnight on Sunday, April 30.

One of the most popular features of the festival will be the family dinner, on Saturday, April 29 from 4 to 7 p.m. Joe's of Westlake will prepare the dinner, ($1.50 for adults and 50 cents for children). Reservations should be made in advance by calling Mrs. James Barrett at PL 6-0589.

SHOWN displaying some of the dolls from this year's Westlake "Fantasy Daze" Festival are Mrs. William Coen and Mrs. John Ramos, co-chairmen of the Doll Booth. The Festival is set for April 27 through 30 at the Parish Hall. (Photo by Charles Blagdon.)

DISPLAYING some of the items which will be offered in the linen booth at the forthcoming "Fantasy Daze" Festival in Westlake are Mrs. Harold Major and Mrs. Vern Box, co-chairmen in charge of this particular booth. Dates for event are April 27 through 30. —(Photo by Charles Blagdon)

## Catholic Daughters To Receive Members

The spring reception of new candidates into Court St. Mary, No. 1155, Catholic Daughters of America, will take place this Thursday evening at Our Lady of Perpetual Help Hall in Daly City.

Ceremonies will be conducted under the direction of Mrs. Donald Heissenbuttel, district deputy.

Mrs. Marcel Covell has been named chairman of the nominating committee with Mrs. Timothy Christen, Mrs. Anita Spinetti, Mrs. Margaret Morey, and Mrs. Una Mae Kulik comprising the committee. They will present their nominations at the May business meeting and election of officers will follow.

Chosen as delegate to represent Court St. Mary at the 19th Biennial State Conference of the State Court of the Catholic Daughters of America, is Mrs. James O'Reilly.

The Conference takes place at the Huntington Sheraton Hotel in Pasadena, opening with a banquet on Sunday, April 30, at 6:30 p.m.

*Unsurpassed quality does not mean high prices*

Despite Gray's reputation for excellence, prices are very reasonable.

## CHURCH OFFICIALS WILL BE HONORED

Northern memebrs of the California State Association of Parliamentarians will honor state president, Mrs. Ray Bond; first vice president, Mrs. John F. Hart, and corresponding secretary, Mrs. C. L. Snyder; all from Southern California, at the all day study conference, Monday, April 24, 10:30 a.m., Parkwood Methodist Church, 317 Alta Vista Way, South San Francisco.

Mrs. Richard Simon, C.S.A.P. Historian, is producing the program "Rescind and Reconsider" presented by Kappa Unit of San Francisco. There Will be a display of Unit and State Histories.

Luncheon will be served by members of the Parkwood Church.

## Mrs. Sowl Will Be Installed April 19

Mrs. William Sowl, newly elected president of the Daniel Webster PTA will be installed at the April 19 unit meeting in the school's multi-purpose room.

The following officers elected for 1961-1962 will be installed with her: Mrs. Raymond McIntyre, vice president; Principal H. Z. Weibel, honorary vice president; Mrs. Earl W. Hall, recording secretary; Mrs. Jack Armstrong, corresponding secretary; Mrs. Robert Colclough, treasurer; Louis Peachey auditor, and Mrs. John O'Hara, historian.

The program also will consist of a panel discussion by the school board. The speakers will be Mrs. Helen Delafield, Mrs. Yates, Mr. Graber and Mr. Huajardo.

Fifth grade mothers will act as hostesses for the evening and will serve refreshments following the meeting.

Grass, brush and forest fires, nine times out of ten, are mancaused. Be careful with fire of any kind, anywhere.

**What does it mean to be rated?**

Not long ago men and women with coronary artery disease, tuberculosis or diabetes were unable to obtain life insurance. Today it is possible for many of these people to be accepted in a special premium classification. Technically speaking they are said to be "rated" policyholders. For many years Manufacturers Life has contributed leadership in this special field. Today we are well known for our progressive outlook and for the favourable premium rates being offered.

Actually 90% of the people applying for Manufacturers Life policies today are accepted at regular rates. Another 8½% are offered insurance at the lowest possible cost considering their particular physical condition, while only 1½% are declined. Whatever your needs, you can be sure of progressive life insurance service when you call the Man from Manufacturers.

## Rabbi Shapiro Will Speak On 'Our New Frontier' April 21

This Friday evening at 8:30 p.m. at the Temple House, 95 South Mayfair avenue in Westlake, Rabbi Robert W. Shapiro will speak on the subject of "Our New Frontier."

The Rabbi's remarks will be particularly directed towards the Congregation which is on the eve of a fund drive to construct the first unit of its proposed Synagogue on the famed Brotherhood Way.

The Rabbi's sermon will deal with the basic goals of a Temple. Who are those who are able to build? Why must the Sanctuary be constructed? Can the Synagogue be the institution that can lead us away from the destructive impulses to constructive and creative impulses?

Sisterhood of Temple Judea announces its bridge party tonight at 8 p.m. at the home of Charlotte Harris, 1030 Gilman drive, Colma. Admission to this evening of bridge, coffee, cake, and sociability will be the purchase of a 50c donor raffle ticket. For reservations, please phone Mrs. Harris at PL 6-5362.

Temple Judea Sisterhood announces its Donor Luncheon and Fashion Show to take place on Wednesday May 3, 12 noon at the Fairmont Hotel in the Gold Room. Make your reservations by phoning PL 6-3266 or PL 5-6362.

"JOY," the youth group of Temple Judea will present a Parent Evening on Monday, April 24, at 8 p.m. at the Temple House. All parents are invited to view the operation of a youth group. Following the meeting, the film, "Memo To Eichmann" will be viewed. Refreshments will be served.

The Board of Trustees of Temple Judea are holding a special Congregational Dinner on Sunday, April 30, 6.30 p.m., at the Press and Union League Club, 555 Post street, San Francisco, to acquaint the Congregation and friends with the completed plans for the Temple to be erected on Brotherhood Way, San Francisco.

### *All Souls Festival Set For May 19-21; To Have Latin Theme*

The All Souls Church of South San Francisco will hold their annual festival May 19-21, with this year's theme to be "A South American Holiday," to be held in a large circus tent on the All Souls school grounds.

On Sunday, May 21—the last day of the three-day event, a barbecued chicken dinner will be served. Charge will be $1.50 for adults, 75 cents for children for this informal meal.

Admission to the festival is free, and there will be many prizes awarded including a trip to Disneyland for the children.

Over a dozen booths, providing games and fun for the whole family will offered in the tent. Some of the booths are, bacon and ham booth, linen booth, fish pond, tiger booth, Dunk-A-Daddy, Religious booth and many others. There will also be rides for children on the school grounds of Loop-the-Loop and Merry Mix-Up. Refreshments of hot dogs, coffee and soft drinks will be available.

## Scout Regatta Set May 27-28

The biggest event of the year for Daly City's Sea Scouts, the annual Ancient Mariner Regatta, will be held at the U.S. Coast Gaurd Base, Alameda, over the weekend of May 27-28.

With well over 1,200 participants last year, attendance in 1961 is expected to break ever this record. Units come from throughout the seven western states to take part in this biggest annual event of Sea Scouting.

As in the past, the group's boats will be used at the regatta for one of the major team events. Three small sailboats will be transported to the base aboard Sea Scout Ship Sea Horse, while Second Officer Jon Harmon and Bos'n Dave Kazakoff will sail the largest of the sailboats to the affair.

Bos'n Kazakoff will direct participation in the many varied events, while the unit's officers will act as judges, supervising the event in which their boats are used.

Officers of the local ship who will participate as judges are Skipper Bob Gunthorp of Westlake, Second Officer Jon Harmon, and Third Officers R. Bruce Wilson, Bob Bender and Chuck Castle.

## Pay Telephone Service Will Change In Area

Pay telephone service in most Bay Area communities will be speeded with the installation of new equipment starting this month, Pacific Telephone has announced.

The change-over means that pay phone customers will be able to dial their own calls to most Bay Area points. Operators will come in on the line only to collect the initial deposit and any overtime charges.

All San Francisco, South San Francisco, Richmond, Hayward and most East Bay pay phones will shift to the new system with the change-over starting in mid-April and finishing in June. New dialing instructions will be placed on the pay phones as the new service becoms available.

A RELIGIOUS EDITORIAL
FROM THE DALY CITY MINISTERIAL ASSOCIATION
by
**Rev. Hillis E. Davidson**
**Vista Grande Avenue Christian Church**

As the heavy hand of the income tax deadline falls across our paths, we are brought once again to ask ourselves the question, "Where did they all go — those hundreds and hundreds of dollars which passed into our pockets and out again—Where did they go?" We take stock of the things which our money has bought for us during the past year. But do we ever check up once in a while and make sure that we have the things which money cannot buy? There is nothing new about that. Long ago Jesus told us to work for the unperchasable treasures of the spirit that: ". . . moth and rust cannot consume nor thieves break through and steal." Especially, in present day America we need to take stock of ourselves and try to recover the spiritual treasures we have lost. Ours is one of the most financially minded eras in history. Too many of our individual and social problems are blamed on the fact that we do not have enough money for this or that. We constantly dream of the time when we will be financially well-to-do as individuals. Personal money-mindedness has always been a chief form of man's idolatry.

We should not, however, belittle the profound importance and value of money. It is the underpinning of our society. The purchasable things are necessary to sustain life, but in the long run it is the things which cannot be bought which determine what the individual, the family and the community will really be. Honesty, stability, personal integrity, dependability, purposefulness, friendliness, unselfishness and love, all these are qualities of character which cannot be bought.

For instance, here is a restless, irritable, aimless man, without peace or poise, weak in temptation, unstable in strain, and here is a man of another kind altogether, a dependable character—you can count on him. Can anyone deduce from the difference between two men their economic status? Or here is a cynic, a man without hope, who says the world has already gone to the dogs and when you die you pass into oblivion. Also, here is another man who loves life, has the zest and will to get the most out of life and in the end will say as did the Apostle Paul: "I have fought the good fight, I have finished the course, I have kept the faith, therefore there is laid up for me a crown of righteousness . . ." Does wealth or bank account determine their attitudes?

Take the realm of friendship and the art of "friend-making." One man isolates himself from his neighbors, becomes bitter and lonely and afraid of other people. Another man has become a master of cultivating friendships. Does money make a good friendship or a lonely person?

Deep religious faiths, profound spiritual insights, inward resources of personal power and the strong companionships of souls, these factors which make life rich and whole are not for sale.

It is good to have wealth, it is good to prosper, but it is better to increase in the spiritual qualities which make us the real stuff-of-living and cannot be bought with money.

## Rev. Tweedy Speaks Before Rotary Club

Rev. Herbert Tweedy, pastor of the Broadmoor Presbyterian Church, was guest speaker at last week's meeting of the Daly City Rotary Club. He spoke on "Bridges to Brotherhood."

Rev. Tweedy listed a number of agencies and organizations who are dedicated to the development of better human understanding such as the United Nations, schools, churches, scout movement, service clubs, National Conference of Christians and Jews, and many others.

The pastor's remarks were developed around three main points: God, Understanding, and Compassion.

Program chairman was Allen Downey.

## Pacifica Youngster Shoots Self In Hand

A Pacifica teenager shot himself through the hand with a 22 cal. rifle last week while cleaning it in the basement of his home at 390 Pacifica avenue.

Christopher Young, 16, said he was working on the gun alone when it suddenly went off. The bullet entered the inside palm of his left hand and came out the rear, Pacifica police reported.

Christopher was treated at Millbrae Medical Center.

## RESOLUTION NO. 16030

A RESOLUTION OF INTENTION TO ANNEX TERRITORY TO NORTH SAN MATEO COUNTY SANITATION DISTRICT

OLCESE ANNEXATION NO. 2 — ANNEX 1961-1

RESOLVED, by the Board of Supervisors of the County of San Mateo, California, that the public interest and convenience require, and that it is the intention of said Board to annex certain territory situate in the County of San Mateo to the North San Mateo County Sanitation District, which territory does not include the whole or any part of any other district formed for similar purposes and is more particularly described in Exhibit "A" hereto attached and made a part hereof by reference thereto.

NOTICE IS HEREBY GIVEN that Tuesday, the 9th day of May, 1961, at the hour of 10:00 o'clock A.M. at the Supervisors Chambers, Hall of Justice and Records, Redwood City, California, are hereby fixed as the time and place when and where all persons having any objections to the annexation of said territory to said District may be heard.

The County Clerk of said County shall publish this resolution at length twice prior to said hearing in the "Record" of Daly City, a newspaper of general circulation within said District and the area proposed to be annexed and published in said County, and no further notice of the passage of this resolution need be given.

* * * * *

EXHIBIT "A"
DESCRIPTION — OLCESE ANNEXATION NO. 2 TO NORTH SAN MATEO COUNTY SANITATION DISTRICT.

BEGINNING at an angle point in the existing boundary line of the North San Mateo County Sanitation District, which point is the most easterly extremity of the centerline of "Webster Drive" as shown on that certain Map entitled "St. Francis Heights, Unit No. 4, Daly City, San Mateo County, California," filed September 19, 1958 in Volume 49 of Maps at Pages 41 and 42, San Mateo County Records, said point being also the intersection of the courses "North 0° 10" West 435.55 feet" and "North 89° 36' 20" East 719.75 feet" in the exterior boundary of said Map; running thence along said Sanitation District boundary line and the easterly line of Block 11 as said Block is shown on the Map aforesaid, North 0° 10' West 435.55 feet; on the arc of a curve to the right, tangent to the last preceding course, with a radius of 480 feet, subtending a central angle of 18° 40' 03", an arc distance of 156.39 feet to the southwesterly corner of Parcel G as shown on the aforesaid Map; thence continuing along said Sanitation District Boundary line and the southerly line of said Parcel G, South 79° 25' 40" East 231.84 feet; thence leaving said line and leaving said Sanitation District boundary line, South 20° 08' West 16.70 feet and South 529.35 feet to a point in the northerly line of Parcel F as shown on the aforesaid Map; thence along the northerly line of said Parcel F, South 89° 36' 20" West 245.70 feet to the Point of BEGINNING.

Containing an area of 3.20 Acres

Passed and adopted by the Board of Supervisors of the County of San Mateo, California, this 4th day of April, 1961, by the following vote:

AYES, and in favor of said Resolution
Supervisors:
JAMES V. FITZGERALD

# Nine Electrical Firms In County Receive Safety Record Awards

Nine electrical contracting firms, all members of the San Mateo County Chapter of the California Electrical Contractors Safety Association, were recently presented with safety awards in recognition of unusually outstanding safety records achieved by their employees.

All employees of each of the nine firms worked one year without a single lost-time injury.

The awards were presented by Industrial Indemnity Company, insurance carrier for the Association, to an employee representing each of the electrical contracting firms. The award ceremony took place during the 53rd anniversary meeting of Local 617 of the International Brotherhood of Electrical Workers held recently at the Union's hall in San Mateo.

Barney Deasy, San Jose branch manager, and Robert Emmons, safety engineer, represented Industrial Indemnity Company in presenting the awards to the following men who accepted them for their firms: Frank Sydon, Sharp Park Electric; Russell Wells, Richmond Electric; Edward Eggleson, Atlas Electric Co.; Eno Ferrando, Coast Electric Co.; Vern Smith, R. C. Electric Co., Inc.; Roy Foster, Reco Electrical Contractors Inc.; John Cabaluna, Safe Electric; Robert Hutter, Gillard Electric, Inc.

McKeegan Electric Co., Inc. also received an award but was not represented at the meeting.

## Mrs. Waldvogel Is Honored By Group

The Northern San Mateo County Samp Fire Girls Leaders' Assn. recently honored Mrs. Arthur Waldvogel at a Camp Fire Ceremonial for her many years of service.

The next meeting of the group will be held Thursday, April 27, at 7:45 p.m. in the Daly City War Memorial Building.

## NOTICE OF PUBLIC HEARING ON ZONING AMENDMENT PROPOSAL

WHEREAS, an application has been received by the City of Daly City to amend Ordinance No. 294 so as to rezone the following described property to a R-3 and C-1 classification from R-1 & R-3 classifications respectively;

NOW, THEREFORE, public notice is hereby given that the City Council of the City of Daly City has set a public hearing on said proposed zoning change and that at the hour of 8:00 P.M. Monday, the 22nd day of May, 1961, in the Council Chambers, City Hall, Daly City, California, the City Council will hear all persons owning property which may be effected by such proposed amendment to the basic zoning ordinance No. 294 and any and all interested persons are invited to appear in person or be represented by agent or petition for the purpose of expressing themselves in support of or opposition to the proposed amendment to Ordinance No. 294.

Said property is situated in the City of Daly City, County of San Mateo, State of California, and described as follows:

Parcel 1 proposed for
R-3 Classification from
R-1 Classification

BEGINNING at the point of intersection of the northerly projection of the easterly boundary of the lands of the Jefferson Elementary School District, as said lands are described in the Deed recorded October 20, 1952 in Volume 2313 of Official Records of San Mateo County at page 549, with the center line of the County Road from Colma to Edgemar (Route 2, Division 1, Section 1, San Mateo County Highways); thence southerly on said easterly boundary, south 0° 07' 05" West (called South 0° 38' 40" West in said Deed) 744.916 feet to the TRUE POINT OF BEGINNING; continuing thence southerly South 0° 07' 05" West 126.334 feet; thence South 33° 44' 35" East 538.400 feet; thence South 0° 07' 05" West 4.77 feet; thence South 57° 44' 18" East 305.17 feet to the westerly line of St. Francis Heights Subdivision No. 2; running thence northerly along said westerly line on a curve to the right having a radius of 805.00 feet and a central angle of 7° 54' 42", an arc distance of 111.16 feet to a point of reverse curve; thence on a curve to the left having a radius of 815.00 feet and a central angle of 40° 03' 19", an arc distance of 569.76 feet; thence North 0° 07' 05" East 126.332 feet; thence leaving said westerly line and running North 89° 52' 55" West 815.00 feet to the true point of beginning.

The above-described parcel of land lies east of and adjacent to the Westmoor High School.

## Colma Represented At Science Exhibit

Two students represented the Colma School (7th and 8th grades) in the Bay Area Science Fair held at the California Academy of Sciences last week.

The young people displayed exhibits of their work in science which had been done on their own time, and in connection with their school work.

Robert D. Astleford, 14, son of Mr. and Mrs. Dale C. Astleford of 228 Second Avenue, Daly City, who won honorable mention as well as a merit award for his exhibit, displayed a solar energy collector. He demonstrated the efficiency of collecting energy from the sun's rays by using a Fresnel lens, attaining temperatures up to 2000 degress Fahrenheit, sufficient to melt copper. Robert is a member of Charles Britten's eighth grade advanced science class.

Brent R. Rourk, 13, son of Mr. and Mrs. Wilbur A. Rourk of 2 Parma street, Daly City, who won a Merit Award for his display, exhibited a collection of some fifty-five butterflies which he prepared over the last two and one-half years. Brent is a member of Thomas Joyce's seventh grade science class.

VIEWING Mrs. H. C. Sunderman's collection of articles from India which will be on display at the Spring Tea of the Women's Association of the Broadmoor Presbyterian Church May 4 from 2 to 4 p.m. in the church social hall are Mrs. Carlos Mattson, (right) president of the association, and Mrs. Kenneth Gillespie, who is in charge of the collections to be shown at the event. —(Staff Photo)

## Jefferson High PTA Officers Installed

New Jefferson High PTA officers for 1961-1962 were installed at last Thursday's meeting in the school cafeteria.

Mrs. Hilda Heagney, parliamentarian and a past president, was the installing officer. Officers installed were: Mrs. M. Plansky, president; Mrs. T. Lewin, vice-president; Mr. John Mongan, honorary vice-president; Mrs. A. Liberato, recording secretary; Mrs. G. Andrus, corresponding secretary; Mrs. A. Castle, treasurer; Mrs. W. J. Doyle, financial secretary; Mr. D. Lesher, historian; and Miss Ada Wood, auditor.

Mrs. Dora Kusber, retiring president, was presented with the past president's pin.

The next meeting of the PTA will be on May 11 in the afternoon at 3:15 p.m. Theme: Safety in a new Decade."

## El Carmele Parlor Has Breakfast Meet

El Carmelo Parlor 181 Daly City sponsored a breakfast at the Native Daughter Home recently.

Grand Vice President Alice Shea, Past Grand Presidents Evelyn Carlson and Irma Caton were in attendance.

Guest speaker was Past Grand President of the Native Sons, C. Scharr.

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS

## NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 510, Public Works Building, Sacramento, California, until 2 o'clock p.m. on May 17, 1961, at which time they will be publicly opened and read in the Assembly Room of said building, for construction on State highway in accordance with the specifications therefor, to which special reference is made, as follows:

San Mateo County, at the city limits of Daly City, on Junipero Serra Boulevard at Eastmoor Avenue (IV-S.M-237-D1C,A), roadway to be widened, channelization to be constructed and traffic signal system and highway lighting to be installed.

Bids are required for the entire work described herein.

Plans, specifications, and proposal forms to be used for bidding on this project can only be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California.

Plans and specifications may be seen at the office of the State Highway Engineer at Sacramento, at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Standard Specifications and special provisions. Each bidder must be licensed as required by law.

The Department of Public Works reserves the right to reject any or all bids.

Abbreviations used in the schedule of predetermined wage rates in conjunction with employer payments listed in the right hand columns are identified as follows:

| | |
|---|---|
| ph | per hour |
| phw | per hour worked |
| php | per hour paid |
| phw/p | per hour worked or paid |
| psth | per straight time hour |
| psthw | per straight time hour worked |
| psthp | per straight time hour paid |
| psthw/p | per straight time hour worked or paid |
| pd | per day |
| pdw | per day worked |
| pdp | per day paid |
| pdw/p | per day worked or paid |
| w | wage |
| gw | gross wage |
| tw | total wage |
| pmd | per man day |

Employer payments other than those itemized herein, as defined in Section 1773.1 of the Labor Code, are to be paid in accordance with the terms of the collective bargaining agreement applicable to the type or classification of the workmen or mechanics employed on the project.

Overtime, Sundays and Holidays—not less than one and one-half (1½) times the basic hourly rate plus applicable employer payments. The holidays upon which such rates shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workman employed on the project.

Copies of all collective bargaining agreements relating to the work as set forth in the aforementioned Labor Code are on file and available for inspection in the office of the Department of Industrial Relations, Division of Labor Statistics and Research.

Attention is directed to Section 7-1.01G of the Standard Specifications providing for employment of apprentices on the work. Every such apprentice shall be paid the standard wage paid to apprentices under the regulations of the trade at which he is employed. Information relative to employment of apprentices shall be obtained from the Director of the Department of Industrial Relations, who is the Administrative Officer of the California Apprenticeship Council.

Pursuant to the provisions of Section 1770 of the Labor Code of the State of California, the Department of Public Works has ascertained the general prevailing rate of wages and employer payments for health and welfare, vacation, pension and similar purposes in the county in which the work is to be done to be as follows:

| Basic rate per hour | Classification | H and W | Employer payments for Vacation | Pension |
|---|---|---|---|---|
| 3.36 | Apprentice engineer (oiler, fireman, heavy duty repairman helper) | 10c phw (1) | 15c phw | 10c phw (1) |

## NOTICE OF TIME AND PLACE OF HEARING OF APPLICATION TO ESTABLISH ZONING

WHEREAS, an application has been filed with the City of Daly City to amend Ordinance 294 of Daly City so as to establish zoning of the following described property as a R-3 District as defined by the terms of Ordinance 294 of the City of Daly City, or as the same has been amended, and

WHEREAS, Sections 65.805 of the Government Code of the State of California establish requirements for such amendment and for public hearings thereon, and

WHEREAS, in accordance with the foregoing, the Planning Commission of the City of Daly City desires to set a time and place for a public hearing so that all interested persons may be heard,

NOW, THEREFORE,

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Daly City has set the time and place for hearing all persons interested in or objecting to said zoning for Tuesday, the 9th day of May, 1961, at the hour of 8 o'clock p.m. of said day in the Council Chambers of the City Hall, City of Daly City, San Mateo County, California, at which time the said Planning Commission will hear any person interested in or objecting to said application and will receive any evidence appertaining to said application.

Said property is described as follows: That certain property situated in the City of Daly City, County of San Mateo, and more particularly described as:

Lots 72, 73, 75 northerly 50.4 feet of Lot 74, and easterly 100 feet of Lot 76, Block 7, Castle Tract Homestead Association.

## JEWISH FAMILIES TO BE SOLICITED FOR WELFARE GIVE

A doorbell-ringing canvass of Daly City and Westlake neighborhoods will be undertaken this Sunday by a corps of volunteers to solicit Jewish families on behalf of the Jewish Welfare Federation's 1961 campaign for $2,034,000.

The drive will be under the direction of Mrs. Max Wahl, Daly City-Westlake chairman.

The Federation's annual campaign supports 34 local, national and overseas agencies in the fields of aged and child care, family counseling, medical care, and civil rights, as well as relief and rehabilitation, immigration and resettlement programs in 25 countries abroad.

Among local beneficiaries of the drive are Bureau of Jewish Education, Emanu-El Residence Club, Hebrew Free Loan Association, Hebrew Home for Aged Disabled, Homewood Terrace, Jewish Family Service Agency, Mount Zion Hospital and Medical Center, and Jewish Community Centers in San Francisco, Marin County and the Peninsula. The drive will also be conducted extensively throughout San Francisco on the same day.

LEADING this year's annual Cancer Drive for the Daly City-Broadmoor areas are the above-pictured seven women. The three women at the far left are area chairmen. They are, Mrs. Mayre Albert, Daly City; Mrs. Edward Goldkuhl, Westlake; and Mrs. Hazel Eagleton, Broadmoor. Four women at the right are Mrs. Sam Sklavos, Westlake team captain; Mrs. E. G. Rowe, Daly City co-chairman; Mrs. Helen Mahoney, Broadmoor co-chairman; and Mrs. Sabra Carrara, Westlake team captain. Drive begins April 17 and ends April 30.

# Westmoor' Circus Is Scheduled For April 28

On Friday, April 28, at 8 p.m., in the boys' gym the music department of Daly City's Westmoor High School will present a 3-ring circus, "Under the Big Top."

Under the direction of Howard Loeffler, music teacher, this show has been more than four months in preparation. The school band and dance band are providing the circus music. The chorus classes are doing all the work backstage of makeup, property, etc.

The girls' P.E., under the direction of Miss Barbara Bosio, will present acts on trampoline and tumbling on mats. Some 40 boys and girls are involved. They are also demonstrating the art of Swedish gymnastics with jump ropes and balls. Mrs. Sylvia Smith's modern dance class is providing a special dance with "black light." There is another feature number with "black light" using spinning batons, twirling ropes and bouncing balls. All the large performing acts have grown out of the classroom instruction. There are students in charge of each major phase of the production who work with student committees.

Clown acts, vendors, etc., have been devoloped separately from special talents available. A sister and brother act on roller skates is being featured with Becky and Everette Croes. In addition, a unicyclist, snake charmer, and a fat lady will offer side show attractions. MC-ing the center ring features will be Student Body President Dennis Vigren. In order to provide the special music used in training the various groups, the band and dance band prepared the music, tape recorded it and then cut over a dozen records for group and individual use.

The school newspaper staff under the direction of Mrs. Doris Lindfors has publicized the progress of this production and provided the special edition of the paper enclosed with this account. The staff reported in the true tradition of circus publicity as pioneered by P. T. Barnum.

Providing colored posters for area wide distribution and publicity are the art classes of Mr. Selwyn Jones.

Tickets at 50c will barely cover the cost of this production and provide a picnic on May 13, as a reward for the hard work of all concerned with the circus.

## School Of Missions At Broadmoor Church

The annual School of Missions is being held at the Broadmoor Presbyterian Church throughout this month and in May. Programs are held every other Sunday evening on the theme, "Heritage and Horizons in Home Missions."

This Sunday, April 23, at 7:15 p.m. the speaker is Mr. Edmundo Vasquez, a resident advisor at Presbyterian sponsored Ming Quong Home for children and youth located at Los Gatos.

Previous to this he was in the same capacity at a similar institution at Mt. Pleasant, Utah. This was the Wasatch Academy, a resident elementary and high school for Protestant youth which is also administered through the Presbyterian Board of National Missions.

Vasquez grew up under the influence of similar work in New Mexico. He will also show some kodachromes of his work at Sunday's program, according to Rev. Herbert Tweedie, pastor.

The School of Missions begins with a snack supper at 6 p.m. and continues with class discussion groups from 6:30 to 7:15 when the program begins. There are classes for adults, high school, junior high and children with infant care provided.

Ladies Circles of the Women's Association provide the suppers and a committee composed of the following has arranged the meetings: Mrs. Martha Dreiling, Mrs. Gladys Burke, Mrs. Pearl Coffee, Mr. Lee Bright, Mr. Don Leitch and Col. Henning Carlson. Everyone interested is invited.

## Study Set On Payments For Auto Accidents

A pilot study on the methods of compensating victims of automobile accidents will be undertaken by researchers on the Berkeley campus of the University of California.

The $25,000 pilot study is being financed by a grant from the Ford Foundation and was announced jointly by the Foundation and Governor Edmund G. Brown.

"This is a major contribution toward our efforts to ease the financial distress that results from automobile accidents in California," the Governor said.

The request for the grant was initiated by Stanley Weigel, San Francisco attorney, who was appointed by the Governor in 1959 to study the possibility of creating a California Automobile Accident Commission.

Weigel will work with Professor Malcolm Davisson, of the School of Business Administration and the Department of Economics, and Professor John W. Cowee, a specialist in insurance law, on the Berkeley campus.

"Some victims of automobile accidents, or their survivors, are compensated financially, while others are not. Some receive huge financial redress, others receive pittances," the three men said, in their request for the grant.

They plan to design a research program with which to make a "thorough-going study in the interest of improvement in determining and providing compensation for victims of vehicular accidents."

# Adult Meeting Is Called By KIP Directors

The next adult meeting of the KIP (Kids in Performance) will be held on Tuesday afternoon, May 30, beginning at 1:30 p.m. in the War Memorial Building, according to Patricia Fawcett, workshop director.

All parents, interested adults, PTA presidents and members and city officials are invited to attend the open meeting.

The meeting has been called in response to a suggestion by a member of the Parks and Recreation Board that city officials and commission members be given an opportunity to better inform themselves of the nature and purpose of KIP.

KIP attempts to promote "juvenile decency" through keeping youngsters occupied in some kind of creative endeavor such as dancing, singing, acting, etc. It is headed by a group of unpaid, community-minded, youth-interested parents.

Most recently KIP offered a program to the recreation board which had previously announced that as yet it had no plan for summer recreation.

The KIP program, suggested to begin May 1, has been worked out to cover all aspects of creative activity and community service to be participated in by Daly City youth throughout the long summer months.

The idea for KIP was the brainchild of Mrs. Katherine (Kay) Irvine who launched it as a story-telling program.

San Francisco was the first city in the world to have a central generating station for the distribution of electricity to the public, according to the San Francisco Chamber of Commerce. The pioneer California Electric Light Company began operations for arc-lamp lighting in September of 1879, three years prior to the opening of Edison's Pearl Street station in New York City. The first central plant in Europe, Brighton Station, London, was opened in 1882.

## Balboa Hi Class Plans Reunion

The class of June, 1951 of Balboa High School in San Francisco will hold its tenth year reunion at The Village in San Francisco on June 17.

Chairman Bob Sacher is asking all June, 1951, Balboa graduates interested in attending to phone Evelyn (Barnes) Hall at PL 6-7751 as soon as possible to report their present address and, in the case of married girls, their new last names so that their names will be sure to be placed on the mailing list to receive further information.

## Office Manager Gets Top Sales Promotion

C. E. Lunsford, of 380 Highgate drive, Daly City, office manager of the Kimberley-Clark Corporation western region sales office in Palo Alto, has been appointed assistant to the western sales manager for industrial products.

Lunsford has been a Kimberley-Clark employee since 1948 and Palo Alto office manager since 1952.

# RIORDAN WILL HOLD SPRING EVENT APRIL 22

Saturday, April 22, 1961 at 7 p.m., Riordan High School is opening its Spring Festival at the School, 175 Phelan avenue, San Francisco, opposite San Francisco City College.

Every type of booth to amuse both young and old will be operating for all from 7 p.m. until 11 p.m. and refreshments will be available the entire evening.

On Sunday, April 23, 1961, the festival will open at 1 p.m. and continue until 11 p.m. A barbecue chicken dinner will be served from 4 p.m. until 7 p.m. Refreshments will be available at any time throughout the day. The main awards will be made at 10 p.m. Sunday evening.

Both the Men's Club under Phil Fraher, Paul Ahearn, Bud Lycett and their committees, and the Riordan Mothers' Guild under Mrs. Hazel Dugan, president of the guild and her committees are busy getting everything in readiness for these two big days.

The students will have their own special booth with Chairmen Jack Watson and Bruce Thompson and the alumni will have a booth under the leadership of James Cannon.

## Christopher Tells Public School Week

Mayor George Christopher has officially proclaimed April 28 as San Francisco's 42nd annual "Public Schools Week."

In his proclamation he urges all citizens to join with him "in a concerted effort to acquire a better understanding of our public schools and the problems with which they are wrestling, to the end that we may lend them our moral, as well as our financial support, and encourage them in their efforts to promote character and clear thinking, which are indispensible, not only to the proper development of our children but to the very survival of our country as a free and a great nation."

KNIFING through the waters of Lake Merced are shown but a few of the many hydroplanes and runabouts that appeared in last year's Mariposa Boat Club's outboard motor races held at Lake Merced. Looks like plenty of action, thrills and excitement? Well, it is! The club's 11th bi-annual outboard races will be held at the lake on April 23, beginning at 11 a.m. Admission is free.

# SPORTS

## Something About Sports

By JIM KALLENBACH

. . . For you adults who have a yen to get your feet wet and make like a duck by learning to swim, remember the YWCA of North San Mateo County is offering a six-week swimming course at Larsen Pool, 19th and Wawona streets, beginning Friday. Beginners at 9 a.m. Those that have had their first lessons will be taken at 9:30, a half an hour later. There is a nominal fee. For further info, call the YWCA office at PL 6-7370. . . .

**. . . Daly City Drugs ball club will tangle with William Lagomarsino baseballers Saturday at 3:30 p.m. at Parkmerced in a league game. This should be a real humdinger. Both clubs are undefeated and have 3-0 records. Both clubs still have four more games yet to play in the Parkmerced league before the championship is decided, but anything could happen at this point! . . .**

The Fernando Rivera School opened its boys' softball league with two opening games. In the Fifth Grade league, the vultures won over the Road Runners 4-1 and the Sixth Grade Raiders beat the Sprites 7-2. Three classes are included in the fifth grade league, namely, the Road Runners, Vultures, and the Bobcats. The sixth grade league includes four classes with team names of the Raiders, Sprites, Thunderbirds and the Lions. Plenty of good softball thrills are anticipated during the league season. . . .

**. . . Franklin School baseballers tangled with Parkside of San Bruno last week for a real good game which resulted in a dead heat—a 1-1 tie. Charles Silk pitched a no hitter and Parkside scored on a walk and stole second and third, scoring on an infield out. Franklin's one hit came from Jerry Donovan, and he eventually scored on an error . . . that's 30 for now.**

## Jeff Varsity, B Swimmers Lose To Mills; C's Rally

Jefferson High's varsity and B aquamen were unable to outswim Mills' swimmers during their meet last Thursday, losing 57-27 and 40-28, respectively. The C's, however, were able to rally and take their meet by a score of 33-26.

Following is listed the events and winners of the first three places:

**VARSITY**

| 50-Yd. Freestyle | Time |
|---|---|
| 1. Ballard (Mills) | 26.6 |
| 2. Mendelson (Mills) | |
| 3. Navarra (Jefferson) | |
| **100 Yd. Butterfly** | |
| 1. Eustil (Mills) | 1:08.7 |
| 2. Beecher (Jefferson) | |
| 3. Herren (Mills) | |
| **200-Yd. Freestyle** | |
| 1. Peterson (Mills) | 2:10.1 |
| 2. Andrews (Mills) | |
| 3. Pfeiffer (Jefferson) | |
| **100-Yd. Backstroke** | |
| 1. Houston (Jefferson) | 1:12.2 |
| 2. Venter (Mills) | |
| 3. Dunson (Mills) | |
| **100-Yd. Breaststroke** | |
| 1. Spencer (Mills) | 1:16.8 |
| 2. Van Hoften (Mills) | |
| 3. Vozzo (Jefferson) | |
| **100-Yd. Freestyle** | |
| 1. Daly (Mills) | 1:01.6 |
| 2. Pomasello (Jefferson) | |
| 3. Mendelson (Mills) | |
| **Diving** | |
| 1. Glover (Jeff) | 84.6 points |
| 2. Durham (Mills) | |
| 3. Landau (Mills) | |
| **200-Yd. Individual Medley** | |
| 1. Durham (Mills) | 25.2 |
| 2. Herren (Mills) | |
| 3. Houston (Jefferson) | |

The medley relay was won by Mills in 1:59.9.

The free relay was won by Jefferson in 1:49.7.

The winners in the B-squad events were:

**50-Yd. Freestyle**
1. Craig (Jefferson) 27.5

**50-Yd. Butterfly**
1. Hess (Jefferson) 33:7

**100-Yd. Backstroke**
1. Wallace (Jefferson) 1:13.8

**100-Yd. Breaststroke**
1. Faull (Mills) 1:21.6

**100-Yd. Freestyle**
1. Craig (Jefferson) 1:01

**100-Yd. Medley**
1. Hess (Jefferson) 1:20.9

Medley Relay was won by Mills in 2:42.2. The free relay was also won by Mills in 1.56.4.

Winners in the C-Squad division were:

**50-Yd. Freestyle**
Baird (Jefferson) 28.1

**50-Yd. Butterfly**
Iwahashi (Jefferson) 30 flat

**50-Yd. Backstroke**
Gurnin (Mills) 32:4

**50-Yd. Breaststroke**
Iwahashi (Jefferson) 36 flat

**100-Yd. Freestyle**
Gortung (Mills) 1:02.6

The medley relay was won by Mills in 2:16.2.

The free relay was won by Jefferson in 1:52.3, setting a new pool record.

## OLM Scores 9-1 Win Over Angels; Beats Misrack's

Our Lady of Mercy Gaels walloped Holy Angels of Colma 9-1 in a CYO League game Sunday at Sweeney Park.

Striking out twelve men and hitting a long home run, Dave Williams of OLM was the big reason for his team's win against their crosstown rivals.

Big Dave allowed only one scratch single and came close to pitching his seventh no-hitter in two years.

OLM also beat Misrack's Saturday at Marchbank's Park, 18-1, with Ron Belli pitching a no-hitter. Steve Nejasmick sparked the club's hitting with two solid hits.

Following is the box score for the OLM-Holy Angels game:

**OLM**

| | ab | r | h |
|---|---|---|---|
| King, 2b | 2 | 0 | 0 |
| Belli, 1b | 2 | 2 | 1 |
| Torre, ss | 2 | 1 | 0 |
| Williams, p | 2 | 3 | 2 |
| Pigot, lf | 2 | 1 | 2 |
| Tracy, cf | 2 | 1 | 1 |
| Wilson, rf | 1 | 0 | 0 |
| McGowan | 1 | 0 | 0 |
| Milton, rf | 0 | 0 | 0 |
| Bucci, c | 3 | 0 | 1 |
| Reiterman, 3b | 2 | 1 | 0 |
| Totals | 19 | 9 | 7 |

**Holy Angels**

| | ab | r | h |
|---|---|---|---|
| Driscol, ss | 2 | 1 | 0 |
| Marconi, cf | 1 | 0 | 0 |
| Leveroni, 2b | 1 | 0 | 1 |
| Moran, 3b | 3 | 0 | 0 |
| Collins, lf | 2 | 0 | 0 |
| Hofmann, p | 0 | 0 | 0 |

| Cryssials, 1b | 2 | 0 | 0 |
| Culberston, 1b | 2 | 0 | 0 |
| Cordano, rf | 2 | 0 | 0 |
| Totals | 15 | 1 | 1 |

## Jeff Runners Win Meet With Mills; Blas Outstanding

Jefferson High's thinclads took all three divisions from Mills High when the two foes clashed at last week's track meet at Jefferson.

The varsity runners took their division with a tremendous 81-32 victory, with the B squad doing likewise with a resounding score of 74-39. Dame fortune and swift legs carried the C's to a 63½-22½ over their opponents, also.

Highlighting the meet was Saul Blas in a broad jump of 21 ft. 8 in., breaking his own record of 21 ft. 7 in., which he set at the Palo Alto Easter Relays last month, and establishing a new record.

The varsity distance medley team entered in a meet at El Cerrito Saturday, unfortunately, were not blessed with the hand of lady luck, and failed to place.

Annibal Davila ran the mile in 4:25.1, which is the second best time in the Northern California high schools so far this year, according to school officials.

The B-squad distance medley team was able, however to capture third place in that event.

## Indian Swimmers Take Beating From Hillsdale In Recent Meet

Jefferson High's swimmers lost in all three divisions in their recent meet with Hillsdale.

Jeff's varsity men were inundated 67-11 by the Hillsdale varsity. The B squad lost 22 to Hillsdale B's 39, and Jeff's C squad was nosed out of a win, losing to the Hillsdale C's by a razor edge score of one point —29 to 30.

Following is the events, the winner, and the winning time:

**VARSITY**

50-Yd. Free:
Keller (Hillsdale) 25:1
Taet (Hillsdale)
Navarra (Jefferson)
100-Yd. Butterfly:
Dillon (Hillsdale) 1:07.5
Friedman (Hillsdale)
Beecher (Jefferson)
200-Yd. Freestyle:
Allen (Hillsdale) 2:01.9
January (Hillsdale)
Ubaldo (Jefferson)
100-Yd. Backstroke:
Houston (Jefferson) 1:13.6
Rhudy (Hillsdale)
Long (Hillsdale)
100-Yd. Breaststroke:
Day (Hillsdale) 1:17.2
Kimball (Hillsdale)
Vozzo (Jefferson
100-Yd. Freestyle:
Homer (Hillsdale) 58.6
Swieger (Hillsdale)
Tonasello (Jefferson)
Diving:
Wanke (Hillsdale) 80:6
Yutzo (Hillsdale)
Glover (Jefferson)
200-Yd. Individual Medley:
1—Long (Hillsdale) 2:36.6
2—Digot (Hillsdale)

Medley Relay was won by Hillsdale, who set a pool record with 1:50.9.

Free Relay went to Hillsdale in 1:47.9.

**—B's—**

50-Yd. Freestyle:
1—Currantie (Hillsdale) 27 flat
50-Yd. Butterfly:
1—Smith (Hillsdale) 30:9
50-Yd. Breaststroke:
1—Dillon (Hillsdale) 1:22.6
50-Yd. Freestyle:
1—Smith (Hillsdale)
100-Yd. Individual Medley:
Viscount (Hillsdale) 1:21

The Medley Relay was won by Hillsdale in 2:14.6. There was no free relay.

**—C's—**

50-Yd. Freestyle:
Baird (Jefferson) 27:6. He set a new school record for the C squad.
50-Yd. Butterfly:
Donnell (Hillsdale) 29:6
50-Yd. Backstroke.
Ennis (Hillsdale) 31:2
50-Yd. Breaststroke:
Dearborn (Hillsdale) 34:6
Freestyle:
Enwig (Hillsdale) 1:01.7

The Medley Relay was won by Jefferson in 2:07.8, setting a new school record for the C squad in this event.

The free relay was won by Jefferson in 1:55.

### Rams Frosh-Soph Beat Jeff 9-6 In League Game

Westmoor's frosh-soph baseballers whipped Jefferson's frosh-soph ball club 9-6 in a Peninsula League game Monday afternoon, played at the Jefferson field.

It was a crucial loss for Jefferson, who up until game time was in second place all alone in the league, but with the loss they were brought down to a tie for that spot, and South San Francisco was raised to two game ahead of the whole league.

It was Westmoor frosh's sixth game in the league play, they have a 3-3 record. It was the first game they played with Jefferson's frosh-soph men this year. Jefferson has a 2-4 record.

Westmoor scored six runs in the second inning, creating quite a stir. Ram shortstop Bruce Hix hit the only home run of the game in the fifth inning. In the top of the seventh, Jefferson loaded the bases but were quickly retired.

Westmoor was really battin' 'em, and was able to get 10 hits for nine runs. Jefferson got five hits for six runs. Both teams made two errors apiece.

LINE SCORE

| Westmoor | | | | | | | |
|---|---|---|---|---|---|---|---|
| Inning | 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| Hits | 0 | 4 | 1 | 2 | 1 | 1 | 0 |

| Hits | 0 | 0 | 1 | 3 | 0 | 1 | 0 |

## Jeff In 1-0 Win Over Capuchino In Ball Game

Jefferson Indians nudged the Capuchino Mustangs 1-0 in a recent game.

The Mustangs failed to capitalize on three of the Indians' miscues in the bottom of the first inning, losing their only opportunity to score.

Jeff's Indians once again capitalized on the first inning strategy and heads up base running. Indian lead off man, Tom McEntee singled through the hole, followed by Sammy Stoller, who sacrificed McEntee to second, next Jack Fuertes drilled a line drive into left field for a base hit.

McEntee was held rounding third and the cut off man fired the ball back to second in an effort to nail the advancing Fuertes. But just as soon as the cut off man did fire the ball to second, McEntee took off for the plate and scored the winning tally.

Stan Montalbo, the Indian hurler, held the Mustangs to only three hits and allowed only one walk throughout the contest, picking off two Mustang runners.

### Contract Awarded

The contract for a dump truck for the city's use was awarded to Neville Ford as low bidder Monday night at the City Council meeting.

Neville's bid was $3,647.85.

Other bids submitted included: Gateway Chevrolet, $3,669.72; Peerless GMC, $3,967.77; and William Sweeney, $3,957.73.

## RAMS WIN OVER HILLSDALE 9-1 IN LEAGUE GAME

Westmoor High's Rams, Peninsula League champions last year, have successfully begun their quest for a second straight championship by trouncing Hillsdale, 9 to 1.

The league opener was the Ram's fifth straight win, and was the fifth consecutive game in which the Rams have rallied in the first inning. In this contest, Westmoor's first look at Hillsdale's acethrower, Ed Bright, produced 2 runs on 3 hits.

Bill Hix got the rally going by batting the first pitch of the game into deep right center for a triple. After Terry Christman had grounded out and Rich Morales had popped up an attempted squeeze bunt, it looked as if Hix might die on third. This possibility was erased when Barry Krohn slammed a liner to center for a single. Krohn stole second, and then scored on Cornell Holmes' long single to right-center.

Westmoor's top three hitters — Morales, Christman and Krohn — each picked up a pair of RBI's.

In the third inning, Krohn picked up his second run—batted—in by doubling in Morales, who had singled. Westmoor scored another pair of runs in the fifth. A single by Hix, and a double down the left-field line by Morales produced the first run of the inning; with Morales later scoring on an error by Knight shortstop Gary Dakan.

In the following inning, Westmoor added 3 more runs to the scoreboard.

The Rams final taliy came in the top of the seventh. A triple by Mike Daniels opened the frame. The junior right-fielder scored on an infield grounder off the bat of Dave Peterson.

Holmes, who has proven himself the Ram's top mound man so far, allowed only 1 hit in 4 innings, while striking out 5. Terry Christman worked the last 3 innings, and gave up 1 run on 3 hits. The Ram left-hander fanned 4 batters.

### DC Area Observes Nat'l Library Week

This week is National Library Week and Daly City is participating in a number of ways.

Friends of the Library have decorated several store windows throughout the area in such a way as to point up how the library enters every phase of life. They have also decorated the window box in the main library on Southgate.

In addition, as part of their annual contribution to the library, they have donated three street signs which point out the direction of the library.

Next Thursday will be the Friends monthly Thursday Matinee Book Review, featuring Mrs. Edwin I. Bartlett, professional book reviewer. There is no charge for this event. Baby sitting service will be available and coffee will be served courtesy of the Westlake Bowl.

## W'moor Rams Rip Bearcats 5-1

The Westmoor Rams tangled with the San Mateo Bearcats last week in a Peninsula League game, ripping them apart 5-1 to make it their seventh consecutive victory and this includes their win in the recent South San.. Francisco.. tourney... The game was played at Westmoor.

The Bearcats scored first in the top of the fourth inning when Ray Kodkari of San Mateo led off with a single to the left; John Reed sacrificed him to second base. Dan Scott was safe on an error by Bill Hix, Kodkari going to third on the play. Elias Conejo popped out to Morales at shortstop for the second out of the inning.

Bob Griggs hit a single to the right, scoring Kodkari. Ted Imuari ended the inning by flying out to Ron Townsend in right field.

Westmoor tied in the bottom half of the fifth when Cornell Holmes doubled to right field line and was thrown out at third, when he tried to steal third on a wild pitch. Steve Payette was safe on an error by the pitcher and Townsend followed with a line single between short stop and third. Chris Hanson followed Townsend with an infield single to the short to load the bases up.

Steve Funai tied up the game 1-1 with a long sacrifice ball to center field. The game broke open in the bottom of the sixth inning when Rich Morales and Barry Krohn both walked and Holmes followed by a line single to left field scoring the tie-breaking run and Payette followed with a ground ball to third base which was fumbled and got away from the third baseman into left field.

Krohn and Holmes scored on the play and Payette took second. Townsend followed with an infield single off the pitcher's glove, Payette going to third.

Final score was made at the bottom of the sixth when Mike Daniels hit a sacrifice flyball to center.

### DC-COLMA LIONS TO HOLD LADIES NIGHT APRIL 27

The Daly City-Colma Lions Club will hold ladies night on Thursday, April 27, at the Steak Pit beginning at 7:30 p.m.

There will be a short business meeting, followed by entertainment, according to Chairman Del Wilson.

Wilson urges all lionesses to come to the special dinner meeting, and also wishes to remind Lions that the regular meeting on April 26 has been postponed because of the Thursday night event.

### Lagomarsino Ball Club Downs New Pisa 9-2

The William Lagomarsino baseball team defeated New Pisa at Park Merced recently by a score of 9-2.

Steve Howder pitched three innings and gave up two hits, also hit a three run homer. Terry Piccardo pitched the next three innings and gave up no hits.

## W'LAKE SPORTS AND BOAT SHOW APRIL 19 TO 22

With spring in the air, summer vacation time is not too far away, and the Westlake Merchants have this in mind when they present the Westlake Sports, Boat and Vacation Show in the Westlake Shopping Center from April 19 through April 22.

Visitors to the Center will see on display the very latest model boats. All sizes and makes will be shown including ski- boats, fishing boats, pleasure craft and sail-boats. In addition to the wide variety of boats on display, you will see auto campers for that motor vacation and a display of tents if you are the rugged outdoor type.

Many other special features will be on display, all at no charge, including an exhibit by the Peninsula Council of Campfire Girls and local Boy Scout Troops.

The U. S. Navy will have a special amphibious exhibit of interest to everyone. So don't fail to visit the Westlake Shopping Center during the great Westlake Sports, Boat and Vacation Show, April 19 through 22 in the Westlake Court.

### W'moor-Terra Nova PTA To Feature Pupil Fashion Show

The Westmoor-Terra Nova PTA will feature an afternoon fashion show and tea this Thursday at 2:30 p.m. in the Westmoor High School cafeteria, according to Mrs. Benjamin Pulsifier, program chairman. All interested parents and friends are invited to attend the meeting.

The theme of the fashion show will be 'Over the Rainbow" and the showing of the clothes will be grouped in the colors of the rainbow.

The girls from both schools will be modeling clothes they have made during the school year in the homemaking classes. The schools' homemaking instructors are: Westmoor High, Mrs. Hollis Sweeney and Mrs. Aileen Kelly, and Terra Nova High, Mrs. Elizabeth Carlson and Miss E. Jean Ferdinandsen.

The fashion show will be followed by the PTA installation of new officers and the installing officer will be Mrs. James Buchanan. The new officers are: Mrs. Pulsifier, president; Mr. Fred Adams, first vice president; Mr. Glenn South, principal of Westmoor, honorary vice president; Mrs. Roy Johnson, recording secretary; Mrs. Fred Adams, treasurer; Mr. Everett Heick, historian; Mrs. Thomas Colangelo, financial secretary; Mr. Roy Johnson, auditor; Mrs. Gene Sebastiani, parliamentarian, and Mrs. Edward Perry, corresponding secretary.

### DC Drugs Wallops Colvin BYA 11-1

Daly City Drugs dealt a deafening blow to Art Colvin BYA Saturday in a Parkmerced League game by defeating them 11-1.

Paul Clayton pitched a one-hitter. Tom Snodgrass drove in four runs with a home run and two singles.

**EXTERIOR TRIM**

If the body of your house is a dark color, when planning a white trim be sure to order a sash and trim paint. This type dries hard and cannot chalk as ordinary exterior paint does.

## May 1 Is Last Day For Veterans To File For Property Exemption

Veterans' Service Officer, Floyd D. Granger, reminded veterans in the county today that Monday, May 1 at 5 p.m. is the deadline for filing claims for the annual $1,000 property tax exemption.

Exemptions requests must be renewed annually with local assessors to insure a veteran's continued eligibility for the exemption. Evidence of honorable discharge during wartime must be shown by veterans claiming the exemption for the first time. Veterans who failed to file last year should bring discharge records.

The period for claiming exemption was shortened last year, and now runs from the first Monday in March to the First Monday in May.

The $1,000 tax exemptions are granted by the State to resident veterans of wars or campaigns, including women veterans. Eligibility is limited to veterans who do not own property with an assessed value of $5,000 or more. However, under California community property law the veteran and spouse together may own property up to an assessed value of $10,000 and retain eligibility.

Under present law, veterans are eligible for the exemption even though they entered wartime service from another state. Ownership of the California property must have been a matter of official record no later than noon March 6, 1961 (the opening day of the exemption filing period) in order to qualify the veteran for this year's property tax exemption.

Further information is available from the Assessor's Office, located at the Courthouse, Redwood City and at the County Veterans Service Office, The Courthouse, Redwood City.

Compact Cousin of the Thunderbird ...

*Here are luxury and styling innovations with traditional Falcon low price and economy that give you all the compact you'll ever want!*

Step into a Falcon Futura...and you'll find it hard to believe this is the saving-est compact of them all. Notice the Thunderbird-inspired interior. Luxuriously styled front seats...custom contoured, foam padded and built to fold flat for gracefully entering and leaving the rear seats.

And here's another Thunderbird touch: a handy console separating the front seats and allowing you to keep all personal effects at your fingertips. Lush, deep-pile carpeting extends wall to wall. These and many features available only as optional extras in other compacts are standard equipment in the new Falcon Futura. Yet for all its elegance, you enjoy the Falcon's traditional economy. This includes the lowest price for any luxury compact in America...plus important savings on gas, oil, license, insurance and repairs.

A Falcon, competing in this year's Mobilgas Economy Run, delivered 32.6 miles per gallon, the best gas mileage for any 6- or 8-cylinder car in the entire 25-year history of this event. See the ultimate in compact luxury, a compact that is so *personally* yours—the new Falcon Futura.

tween short stop and third. Chris Hanson followed Townsend with an infield single to the short to load the bases up.

Steve Funai tied up the game 1-1 with a long sacrifice ball to center field. The game broke open in the bottom of the sixth inning when Rich Morales and Barry Krohn both walked and Holmes followed by a line single to left field scoring the tie-breaking run and Payette followed with a ground ball to third base which was fumbled and got away from the third baseman into left field.

Krohn and Holmes scored on the play and Payette took second. Townsend followed with an infield single off the pitcher's glove, Payette going to third.

Final score was made at the bottom of the sixth when Mike Daniels hit a sacrifice flyball to center.

# Home Improvement Activity Bids To Outstrip 1961

Home improvement activity, which ran at a record rate last year (in dramatic contrast to lagging housing starts) promises to outstrip even that rapid pace during the early months of 1961.

According to industry sources, home owners, contemplating repair, remodeling or modernization work, would be well advised to launch such projects at the earliest possible date in order to avoid the rush of home improvement jobs that can be expected to tax the capacity of many contractors and others involved, with the approach of summer.

Right now in many a family circle, one of the main topics of discussion is that "something must be done about the house" to bring it in line with expanding needs for living space or with modern standards of comfort, convenience and livability.

The honeymoon cottage that was ideal for two is found to be bursting at the seams with children, and extra bedrooms become a "must." Or the old fashioned house that was bought primarily because of its size must be modernized. Or even the almost-new house needs minor repairs.

**Plan Comes First**

Basic to launching a successful program of home improvement is the formulation of a well thought out plan, in which the relative urgency of specific family needs and the maintenance of property value should be major factors in establishing a logical order of "priorities" within the scope of the family's financial resources.

Which is just another way of saying "put first things first" in planning home improvements.

Usually it makes sense to start by putting your house in tip-top shape. Take a long, hard look at everything about your house: siding, roofing, windows, doors, floors, stairs, walls, even the heating system. Head your list of improvements with necessary repairs. Then consider remodeling, enlargement and modernization.

Include your entire property in your plan. If more living space is your most pressing need, determine how you can make the best possible use of every square inch available. What about the unfinished attic or basement? Does either or both afford space for creating extra bedrooms or a recreation room? Is such a transition practicable, cost-wise and otherwise? Should you convert the garage into an extra room?

**Up-Dating Homes**

Even the newest houses have some things that can be improved by remodeling. Changes in lighting fixtures and the addition of wall paneling, built-in wardrobe units and closet accessories, built-in dressing tables, desks and breakfast bars are additions that will help to keep a house up-to-date and enhance the convenience and pleasure with which a family will live in it.

On the score of modernization, take a close look at those two focal points of household activity: the kitchen and the bathroom. To what extent have either or both become outmoded by recent improvements or refinements in these two realms? What steps should be taken to up-date them or expand their facilities? How much will it cost?

Once you have decided what should be done to improve your home, and in what sequence, you are ready to determine how much of the work you can or will want to do yourself, and how much will require outside help, and of what kind.

**LIGHT CONTROLS are used in this game room to dim, brighten or blend the lighting from fluorescent lights in luminous ceiling and duck wall bracket and incandescent lights over card table, window seat and in reading lamp, each of which has its own Luxtrol control.**

## CAREFULLY PLANNED LIGHTING IMPORTANT IN TODAY'S DECOR

Decor-conscious homemakers are taking increasing notice of carefully planned lighting in their decorating. One significant indication of lighting's importance for pleasure, comfort, beauty, and safety is that electric utility companies define it as "Light for Living" and specify that provision for good lighting is as necessary as full housepower and electric appliances for their Medallion Home awards.

Lighting, as much as fabric and furnishings, can be used to create dramatic visual effects, solve space problems, and complement and give richness to colors. Indeed, money spent for expensive and tastefully decorated rooms is wasted if the results cannot be seen because of inadequate lighting.

Experts in home lighting suggest the following decorative effects you can achieve with lighting:

1. **Spaciousness.** Rooms can be made to appear larger when an abundance of lighting eliminates dark corners. Low ceilings are "raised" with a lighted cornice, formed by mounting the lighting channel and faceboard on the ceiling over a window or wall.

2. **Definition of Living Areas.** Just as decorators often use area rugs and different textured wall coverings to define a dining area or home entertainment corner, so coordinated lighting fixtures can set aside activity centers.

3. **Accents.** Wall and ceiling fixtures will not only illuminate but also point up paintings and art objects without creating floor or table clutter.

4. **Color Prominence.** A proper level of illumination is necessary to do justice to a carefully considered color scheme. And special effects can be created with coloramic lamp bulbs. A dawn pink bulb, for example, enlivens reds and enriches walnut and mahogany, while a sunny gold bulb is gay and mellow with all colors, particularly effective with green and with maple, pine, and fruitwood.

5. **Controlled Lighting.** Area lighting (for example, any overhead source of light) which illuminates the whole area of a room, should be controlled so that you can have a high level of intensity when there are several persons in a room or, for fewer people, less light, which produces a quieter, more relaxed feeling. Table and floor lamps provide task lighting for reading, sewing or similar seeing tasks. Perimeter lighting is illumination at the sides of the room. New light controls make it possible to dial any degree of light from off to full brilliance.

# IMPROVEMENT FINANCE PLAN CAN BE GEARED TO THE OWNER'S NEEDS

Do you have any home improvement projects (ranging from simple paint or carpentry jobs to major remodeling or enlargement) on your agenda for the immediate future?

Regardless of their size or scope, these improvements are going to cost money, and here are six basic ways to foot the bills according to finance experts of the American Bankers Association.

1.—Savings. Buy necessary materials and tools for small improvements — like painting and minor carpentry — out of current income or savings. Set up a small fund for maintenance. Earmark it for specific jobs. Then, add to it regularly each month. You can deposit this money in a special account at your bank—separate from regular savings.

2.—Time payments. Most department stores, appliance dealers and building-supply firms offer monthly-payment plans. Usually, you can get 12 to 24 months to pay. It depends on the size of your purchase.

3.—A personal loan from your bank. You can borrow up to $5,000 with three years to pay. Interest charges are controlled by law.

4.—A home-improvement loan. There are two types: a Title I loan insured by the Federal Housing Administration; and a conventional, uninsured property-improvement loan. Both are similar in form and content. You can borrow up to $3,500. Also, you can usually get three years to repay amounts under $600 and five years for larger sums. You can get both at local banks and other authorized lending institutions. Also, many contractors and supply dealers act as agents for a lender in arranging a home-improvement loan. You don't have to put up any security other than your own credit standing.

**How Loans Differ**

Then, what is the difference? Chiefly, interest rates and how you can use the money. Also, the Title I loan insures the lender against loss should you fail to repay.

Interest on a Title I loan is limited by law to a discount of five dollars for each $100 a year. But interest on a conventional uninsured loan usually runs about the same as for a personal bank loan. "Discount" means that full interest charges are skimmed off the top of your loan at the very beginning when you get your money. So if you need a certain amount of cash, borrow that amount plus the total discount to get the actual dollars you need.

FHA Title I loans are also limited as to how you can spend the money. Your improvements must be "built-in." The law says the money must be spent for "the substantial protection or improvement of the basic livability or utility of the property." Thus you can't borrow money for improvements like landscaping, swimming pools or wall-to-wall carpeting.

Remember, conventional, uninsured bank loans are more flexible. Here, you can borrow for almost any kind of improvement. They even include things like electrical household appliances, outdoor barbecue pits and lawn sprinkling systems.

**"Open End" Mortgages**

5. — "Open End" Mortgage Financing. The name doesn't mean the stuffing is going to fall out of your mortgage. But it does mean you can borrow extra funds for home-improvements. Usually, the size of your loan is limited to the amount you have already paid off on your mortgage. You pay by increasing the size of your payments or extending the time for repayment.

6.—Mortgage refinancing. If you have a conventional rather than an open-end mortgage, you can retire your existing mortgage; then obtain another in a new amount. Interest rates are usually lower. But you often have to pay charges for a new title search, recording and the other fees that go with getting a mortgage.

Discuss your plans with the loan officer at your bank or other lending institution. He will be glad to explain these loans in more detail. He can point out the advantages and disadvantages of each. And he can tailor your home-improvement plans to fit your entire financial background.

**PLAY AREAS** for children in recreation room or their bedrooms can be attractively delineated by multi-colored random patterns in solid vinyl floor tiles. Resilient, noise-muffling solid vinyl provides a most practicable base for children's play activities.

# "Trouble Free" Is Materials Must For Fun Room

"Trouble free" is the number one requirement for all materials used in the family fun room.

A popular choice for flooring is resilient rubber or solid vinyl. Since the colors go all the way through in these high quality floorings, they withstand wear and tear of dancing feet, spilled glue from the hobby activities, dents from small fry pull toys, spilled drinks and other hazards common to a heavy traffic room devoted to family recreation.

Both rubber and solid vinyl flooring may be considered as structural components which last for the life of the building.

It is easy for the do-it-yourself enthusiasts to install either rubber or solid vinyl in interesting designs. By creating special areas of activity through the resilient tile design, the home owners can achieve not only a feeling of greater spaciousness in the recreation room but also localize activities of different members of the family, for example.

Creating a shuffleboard or checkerboard pattern as part of the design of the family room floor is another way to increase the play value of the rubber or solid vinyl flooring.

# NOW IS TIME TO CHECK-UP ON ROOFING

An early spring inspection of the roof is a timely and useful operation, because the rigors of the winter months may have caused damage that would otherwise go unnoticed.

Slow and unseen leaks are among the principale causes of permanent injury to the roof structure, framing and sills. Long exposure to the sun will often cause a roof to become dry and porous, and sudden temperature changes are a factor in the curling of roof shingles.

Some of the danger signals to look for are these:

Asphalt shingles, that have outlived their usefulness, will show the first signs of eventual roof failure by granules washing off, permitting the felt underneath to dry out or crack.

Shrinkage will cause old wood shingles to crack and split. In extreme cases, they will curl, allowing sleet and rain to wash under them, thus weakening the understructure of the roof. When nails begin to pop out, this is usually a sign that the wood has rotted around the nail holes.

Faulty application and long wear can both contribute to failure of roll roofing. Over the years, the sun dries out this roofing and causes blistering and cracking.

Look for specific trouble spots around dormer windows and chimney flashings, vent pipes, valleys and gutters and on hip roofs.

Recommended by roofing experts is a good metal or felt flashing material to assure water-tight dormers.

# NEW COLORS WILL DO MUCH FOR A ROOM

Through skillful use of color, you can make rooms look larger or smaller to suit your taste. This eliminates expensive remodeling and often gives the same effect.

Well applied paints in certain colors produce distinct changes in appearance.

For instance, an unusually large room often seems cold and uninviting. Painting the walls with strong warm colors — one of the yellow, orange or red hues — can make the room seem smaller and give it a new and friendly feeling.

Different color paints are useful for creating separate activity areas, in one large room, such as areas for reading, conversation, card games, music, TV or other purposes. Place some pieces of furniture at right angles to the wall in addition to painting two walls different bold or warm shades.

**Painting Small Rooms**

If you have a very small room, paint furniture, built-in doors, woodwork and walls all the same color, using a pale cool color. Walls will seem to recede and the same color everywhere will give the illusion of unbroken space. Carry the one-color effect still further by using carpeting and draperies of the same shade.

If you have a long, narrow room, paint the small end a warm, advancing color to make it seem closer, though other walls may be of lighter hues.

If you have an L-shaped room with an alcove or dormer, paint it all one color to unify it.

# PLUMBING CONTRACTOR CAN UTILIZE 'HIDDEN' AREA FOR BATHROOM

In the growing family, lack of privacy and irritating wash-up priorities can emphasize the need for more bathroom space. An unprofessional view of the home may fail to uncover available space for an additional room. But the plumbing contractor, with his years of experience in these matters, can often utilize an area under the stairs or adapt a closet which, with the right fixtures, can be another bathroom or powder room.

In adding a new bathroom or modernizing an old one, the question of "right fixtures" is an important one. Today there are many important readily available which can fit the exact space and decor requirements of any house. There are fixtures for the large bathroom and for the smaller room, fixtures especially suitable for adults, and others for children. Style and color variations are numerous; as are the very important factors of durability, quality and brand names.

**Corner Tub Favored**

The corner bathtub has long been a favorite in remodeling schemes where existing wall structures are left intact. The free finished side of the corner fixture makes it adaptable to walls that extend beyond its length.

Many modern designs are now available in corner models. One example is the recently-introduced Contour bathtub which features a spacious non-symmetrical bathing area.

The decorating possibilities with the corner model are very attractive. The free end of the bathtub can be equipped with a towel ladder emphasizing the towel colors used in the bathroom scheme.

A popular modernization idea for the house without a basement is the combination bathroom-utility room. Modern, compact fixtures make it possible to have a streamlined installation for laundry and bath facilities in an area approximately 6 x 8 feet.

Along one wall you can have a 5-foot recess Contour tub, which adds to the utility of the bathroom with its handy ledges for easier cleaning and sitting space for mother while bathing her children.

**Tile Divider**

A tile divider can separate the tub from washing and drying equipment, which come in compact models for this kind of installation. The tile divider can house the piping for the tub and the washer/dryer.

On the opposite wall twin lavatories can be installed.

NOW! A MAJESTIC GRANDMOTHER HALL CLOCK EVERYONE CAN AFFORD . . .

AND WHAT A STATELY ADDITION TO YOUR HOME!

a treasured timepiece by Ridgeway

ONLY $198.50*

Timely elegance to enrich the beauty of your home. Rich with important traditions . . . precision German movement for absolute accuracy; a swinging pendulum behind a glass paneled door; cheerful Westminter chimes announcing each quarter-hour; the once a week key-winding ritual; delicately-etched bronze-silver finish face; the detailed cabinetwood case in a mellow mahogany (or walnut if you prefer) finish. Carefully copied from Grandmother's stately hall time piece, but scaled to suit modern homes. . . . 72" high, 15" wide", 10" deep. Be sure to see it soon.

# LANDSCAPING ADDS VALUE TO PROPERTY

When the landscaping of the home grounds is properly planned, it can substantially increase the value of the property.

Trees and shrubs increase in value as they grow, in contrast to many things purchased which deteriorate in value as time passes.

How do you plant your property to be more liveable and valuable?

The purpose of landscaping is to blend the home into the landscape, making it more pleasing to look at, and to afford extension of the living area from indoors to outdoors.

A garden living room may be planted for privacy and beauty, affording a delightful area in which to relax, entertain and play outdoors. Evergreen trees and shrubs, roses and fruits and other plants are arranged for more gracious living for family and friends.

**"Plant a Picture"**

In landscaping, we think of planting a picture to frame the house. There are three main areas of any property.

First, comes the front area, facing the street, which is continuously on view to neighbors and passersby.

Here we usually like to see a patch of open lawn. Trees may be planted off the corners of the house to form part of the landscape "frame." We need to connect these with a flowing line of plants, or "foundation" planting. Low-growing plants are placed along the front of the house at its foundation. These are better placed in flowing lines than in a straight line. On each side of the entrance a higher-growing plant is planted to accentuate the doorway.

**Living Area**

The "garden living" area is where the family lives. Usually it is at the rear of the house, close to the kitchen door, for convenience.

Planted shrubs and at least one shade tree can be arranged to provide "privacy" and coolness in the hot summer months.

In the garden living room the home owner can indulge his wants with roses, camellias or any other plants that will grow well in his soil and climate. Since this area is designed for living, it can be decorated with any of the lovely plants found at nurseries. Nurserymen can advise what will best thrive, what plants to use to screen off the area, and give other valuable "tips" that will save time and money.

The third area is the "working" area, where fruits of your choice, berries and other plants may be grown.

**CUSHION FOR HANDS**

Protect the skin on the palm and fingers of hand by wrapping a piece of rubber sponge or plastic foam around the tool being used.

**HAMMER STRAIGHT**

When a hammer keeps glancing off nailheads at an angle, chances are the hammer is dirty or nicked or both. Correct this by cleaning with a solvent, then file the surface even with a flat-file.

**COIL SPRING RACK**

Small tools can be stored and kept visible with a rack made out of a coil spring. When the spring is stretched horizontally between two nails on the wall, the tools may be shoved between the individual coils. The tension of the spring will hold them in place.

**ATTRACTIVE LANDSCAPING sets off this backyard swimming pool to excellent advantage and provides a welcome measure of privacy. Attention to landscaping can add much to enjoyment of pool; this one by Lancer Pools Corp.**

# Cadillac Plastic New Plexiglas Outlet

Cadillac Plastic Co., 949 East 11th, Oakland, has been appointed an authorized distributor of Plexiglas cast acrylic sheets by the Rohm & Haas Co. The transparent and colored plastic sheets are used in signs, lighting fixtures, glazing, food and chemical processing, and safety equipment.

Cadillac Plastic Co. warehouse-sales offices in South San Francisco at 313 Corey way, and Los Angeles also are authorized Plexiglas distributors. The Cadillac Plastic chain is the largest plastic distributor in the West, representing more than 30 nationally advertised plastic brands.

Manager of the South San Francisco warehouse sales-office is Frank Hunt, a Westlake resident.

The new Oakland distribution point will improve service on Plexiglas sheets to the East Bay region and industries in the rest of Northern California and Western Nevada, manager Frank M. Hunt said.

Cadillac Plastic will be able to provide overnight delivery to virtually any point within 200 miles, Hunt said. In addition the office provides over-the-counter service.

# Redecorating? Bring Sparkle And Interest

If you are about to redecorate, keep in mind two major objectives. The first is to bring sparkle and interest to the home, and the second is to keep a look of harmony in the home. No matter how imaginative your ideas are, if they don't jell together the result will be unsatisfying.

For the unprofessional home decorator this often presents a problem. But there is help at hand, and at no charge. Visit your local wallpaper store and take a look at the sample books there.

You will find in almost every sample book groups of coordinated papers that make a good starting off point for a decorating scheme. Two, three or even four papers are tied together by design or color or mood, or sometimes by all three.

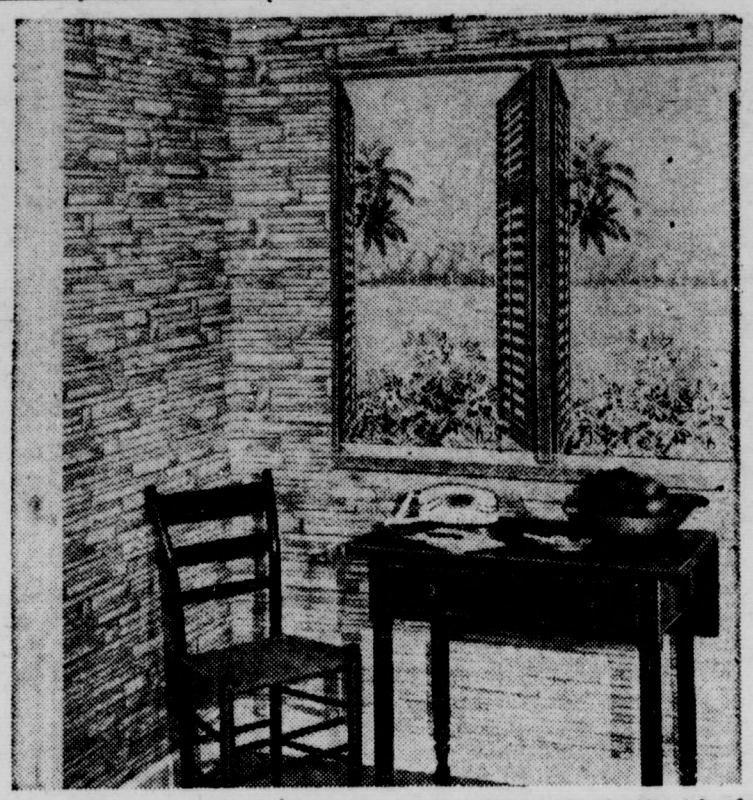
A typical grouping might be a repeat design of a Colonial scene in light beige, brown and burnt orange, which could be used effectively in the hall; a small neat documentary pattern in the same three colors, which would look well in the dining room, and a simple embossed texture of beige with slight flecks of brown and burnt orange, which would be a good choice for the living room as a background for the many books and pictures.

This would give both contrast and harmony in three connected areas. Use these ready made schemes throughout the house wherever you have adjoining rooms to decorate such as bedroom and bathroom, or kitchen and dinette.

These matchmates are not new, but they are now to be found in the popular priced field in many attractive designs of fine quality. They bring unity and distinction to any room.

Where a room has no particular style, either because of different furnishings that don't blend too well or because of too many distracting colors, the use of these matchmates will do a great deal to tie in scattered effects and give harmony to the room.

Trained decorators know how to use what is on the market, and the do-it-yourself decorator too, should use all these built in aids that are there for the looking. The job will be easier and the results better.



**SMALL HALL CORNER is lightened and brightened by wallpaper panel presenting an airy view of sun, land and sea, Open air feeling is furthered by ranch stone wallpaper, surrounding the view.**

# MANY FAVOR 'NEW HOME AT OLD ADDRESS'

Millions of American families, who prefer a "new home at the old address," spent nearly $20 billion on home modernization during 1960 according to Home Improvement Council, which represents manufacturers, dealers, contractors and others involved in the home improvement business.

In 1961, home owners will spend even more for this purpose, Council executives declare, pointing out that there is a growing realization on the part of property owners that remodeling can be a good investment. The home that is well kept and periodically improved will bring a much higher resale price than the owner's total investment in it.

Many families, too, improve their present homes because they do not want to move. They have made friends in the neighborhood. The children are settled in area schools. The housewife has come to know and have confidence in area retailers. These and a variety of other factors exert a tremendous hold.

Living (as millions of families do) in post-war homes built to minimum standards, and with larger families, the happiest solution is often to improve the present dwelling.

Responsive to the needs of the many families embarking upon such projects is the growing number of one-stop home improvement centers, where home owners can obtain all of the materials and arrange for all labor needed for the most ambitious project. Financing can be arranged at the same time. As a result, home improvement projects are almost as easy to buy as a new car.

### FINDING TINY PARTS

To find tiny screws or small parts dropped on the floor, place a lighted flashlight flat against the floor. The small part will be easier to find when the light hits it because of the long shadow it will cast.

### TACKS PROTECT WALLS

The smooth heads of tacks, placed inside the two lower corners of picture frames will protect the wall surface from scratches.

# New Ceiling Reduces Noise, Adds To Room Decor

CEMENT is applied to acoustical tile in preparation for installing ceiling Cement dabs should be walnut-size and kept back about one inch from edges of tile.

ACOUSTICAL tiles can be cemented directly to the ceiling. Each tile should be slid back and forth under light pressure to assure firm bond.

If you are at all handy, you can now put up a new ceiling that will substantially reduce noise and, at the same time, give the room a smart, distinctive look.

All it takes is a little time — an average room can be done in a weekend — some acoustical tile, and a few accessories.

Acoustical tiles are absorbent materials that soak up noise much as a kitchen sponge soaks up water. They can absorb as much as 85 percent of the sound striking them.

Tiles range in appearance from simple surfaces to designs with a "high fashion" look. If color is your desire, it can be fulfilled with one or more plastic tiles of various hues.

Once you have made your choice of tile you can choose your installation method. The Acoustical Materials Association, says that the first step should be to ascertain the condition of the present ceiling. Check to see if the ceiling is sound by applying pressure against the surface with your hand. If the ceiling is firm and the surface is unbroken, the ceiling can be considered safe for cementing tiles directly to the surface. If there are cracks, but they are of only minor nature, the ceiling may still be sound and the cementing method may be employed.

Before beginning the cementing, it's important to make sure the ceiling is clean and dry. This is to insure a good firm cement bond. Painted ceilings should be roughened with coarse sandpaper and any wallpaper on the ceilings should be removed.

When you are ready to begin the actual installation, apply acoustic cement at each corner of the tile. Use a putty knife or small trowel.

Start the installation at the center of the room and work across. Slide each tile back and forth under light pressure to assure a firm, even bond between the tile and ceiling surface. Make sure the tile edges butt tightly together before the cement sets.

Some tiles will have to be cut to fit into irregular spaces around ceiling fixtures, but this is not difficult when a good crosscut saw or sharp fiberboard knife is used.

Cementing is the easiest and most practical method to use whenever ceiling condition allow. However, if the ceiling is badly cracked or if the plaster is falling or sagging, you should take the precaution of first nailing up a framework of wood furring strips and then attaching the tiles to them.

**LEVEL CHECK**

You can improvise a "level" from an ordinary glass measuring cup which has markings on both sides. If the cup is filled with water to any one of the marks, it will show that the surface is level when the water contacts the mark on all sides of the cup.

**SANDPAPER STORAGE**

Use an old phonograph record album as a storage book for sandpaper and other abrasive sheets. Put each grade of abrasive in a separate sleeve and label so that each one can be quickly located.

# MANY METHODS FOR HEATING EXTRA ROOMS

If you have decided to expand the living space of your home, don't forget to make plans for heating.

To choose the right type of heating equipment, ask yourself these questions about costs, comfort and value:

1. How much will the heating equipment cost? How much to install? How much to operate? Will there be any hidden extra costs?

2. How much comfort will the heating equipment provide?

3. Will the heating equipment increase the value of the house? Should the heating become a permanent-type addition to the house like the new room itself?

**Four Methods**

There are four possible methods you can use to heat the new room, each varying in cost, comfort and value.

First, there is the appliance-like space heater which is simply set on the floor of the new room. It uses either gas, oil, kerosene or electricity.

The space heater is frequently the least expensive to purchase and install, but it is not always the most economical to operate. Moreover, heat is usually concentrated in one spot around the heater.

Electric resistance baseboard units are relatively inexpensive and easy to install, and they provide more uniform heating. Operating costs, however, may run three to four times higher with this type of unit except in a few areas where electric rates are extremely low. To maintain heating efficiency with electric units, extra heavy insulation is recommended for ceiling, walls and floors.

**System Expansion**

Another way to heat the new room is to expand your existing central heating system. This should be done with the advice of a reliable heating contractor, who can tell you whether your heating plant is large enough to take on an extra heating load.

This method may be more expensive than the first, but should provide the finest heating if the heating equipment is properly installed.

You will probably have fewer problems expanding your heating system if it is a modern hot water heating system. According to the Better Heating-Cooling Council, a properly installed hot water heating system can be expanded quite easily without extensive alterations to the system or to the house itself.

Finally, you may find it practical to install a separate, permanent-type heating system just for the new room. According to the Council, there are now available small hot water heating boilers which are sized for one-room heating jobs. The small boiler can be located anywhere in the house. Finger-size, flexible tubing is run from the boiler to hot water baseboard board heating units.

# PANELING A ROOM IS NOW EASIER FOR A HOME OWNER

Paneling a room in wood is a lot easier than it used to be, and there is no room in the house where wood paneling doesn't fit in with most furnishings.

About 35 native tree species produce lumber suitable for paneling. Each contains several variations in color and grain pattern, so you have literally hundreds of different decorative effects to choose from.

Before installing your paneling, make certain it is conditioned adequately for interior use. The wood has been thoroughly dried at the mill, but interim changes in weather may have altered its moisture content. Store the wood in the room you're going to panel for 7-10 days before using it.

If you are paneling a masonry wall, attach 1x2-inch furring strips to the existing surface first. Place them two feet apart and use masonry nails for the fastenings. The strips should run at right angles to the longest dimension of your paneling — that is, horizontally in the case of boards laid vertically; vertically for boards laid horizontally.

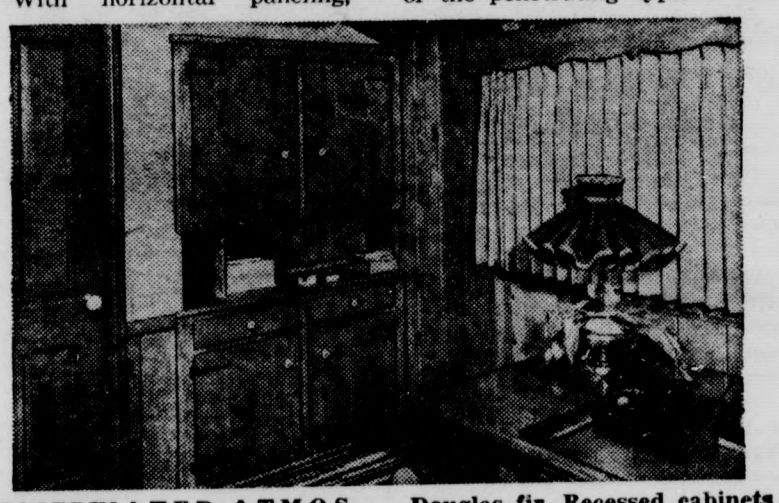
If you are covering a plaster wall, first step is to locate the studs underneath. Note where the nailheads are in the base molding; they are undoubtedly anchored in the studs. If this procedure doesn't work, tap the wall and then drill small holes at those points where you get a "solid" sound. A magnetic "stud finder" is helpful.

With horizontal paneling, each board may be attached directly through the plaster to the studs. Vertical paneling may be attached to horizontal furring strips, which have been nailed previously to the studs at 2-foot intervals. The same procedure applies if you've built a new room partition as part of your project and want to panel it. Here, of course, since the studs are exposed, they don't have to be prelocated.

Wood paneling can be anchored to studs or furring strips with either metal clips or nails. If you buy boards with grooved edges, adjoining pieces will overlap and hide the nails. Use finishing nails when it's necessary to go through from the foce of the board. Drive the nails in below the surface with a nail set and then cover the spot with putty or tinted filler.

It is not always possible to install paneling that will fill in the space between floor and ceiling lines exactly. Therefore, you might consider base moldings that cover the gaps produced and enhance the beauty of the paneling.

Three kinds of natural finishes are possible. One is transparent surface film (varnish) and usually changes the color of the wood only slightly. A second type consists of a stain to color the wood and accentuate or mask grain patterns followed by a clear surface coating. A third type of finish is semi-transparent and contains a masking pigment. It is usually of the penetrating type.



**COORDINATED ATMOSPHERE is created in this homey den by walls and ceiling of knotty ponderosa pine and four-paneled door of Douglas fir. Recessed cabinets provide good storage capacity without taking space from room. Braided carpet adds color.**

# Need For Additional Living Space Comes First

## LOW-COST EXPANSION POSSIBLE

The need for additional living space is often what comes to mind first and most forcibly when the family gives thought to the matter of how its present home can be made to serve its requirements more comfortably and conveniently.

If the family has increased in size, perhaps one or more extra bedrooms will get top priority on the home improvement schedule. Or possibly indicated for early consideration will be a study where Dad can read or work in peace, a sewing room for Mother, a playroom for the children or a family room for everybody to enjoy.

First step in any such program is to evaluate the house in terms of its practical possibilities for remodeling to create the desired extra room or rooms.

Fortunately for those concerned with expanding a home's living facilities, almost every house has unused space that could readily be converted into useful extra rooms.

**Attic Conversions**

In many homes an unused attic will provide ample space for one or two extra rooms — bedrooms for the children or guest rooms. Another good source of useable space is the basement, which often offers excellent possibilities for an attractive recreation room, family room, hobby room or TV lounge.

Usually it is possible to have an extra bathroom in either of these areas. In many homes the plumbing lines are so located that they can be extended tothe floor above or below at modest cost.

Still other possibilities for conversion to more useful purposes are offered by an open porch or attached garage, either of which can often be made into a comfortable den.

Once you have decided which area of the house offers the best possibilities for remodeling, the next question to consider is how much, if any, of the work involved you will be able and wish to do yourself.

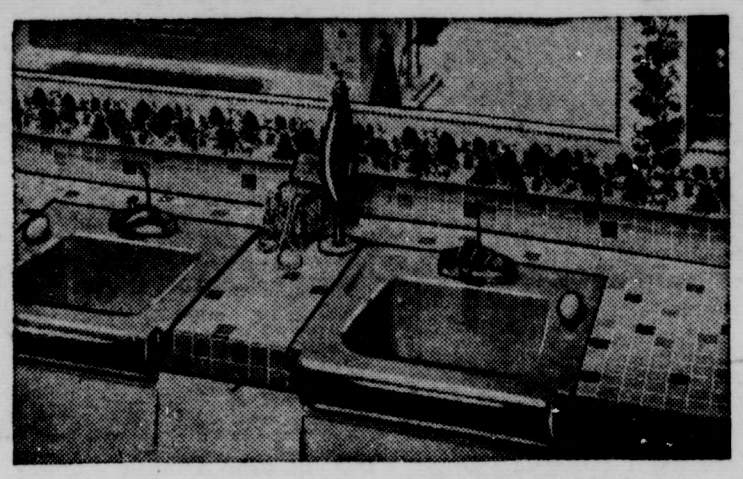
**Allocation of Work**

The answer, in each case, will depend in large measure upon the "handiness" of the homeowner, the amount of time he can or is willing to devote to the job, and the complexities of the project itself.

Do-it-yourself can be the answer for some people on some jobs. But it is usually not feasible when major alterations are involved, or when you want to add a porch, remodel a carport or put a dormer in an attic. Plumbing and electrical work also call for specialized outside help.

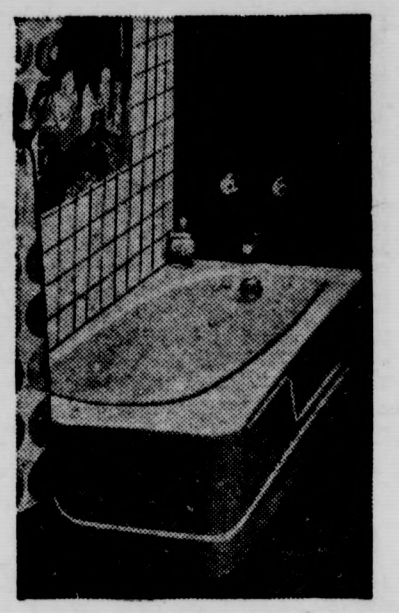
Having decided who is going to do what in connection with your remodeling project, the next thing is to call in the required general or specialized (plumber, electrician, etc.) contractors for competitive bids.

If you are going to do most or all of the carpentry work yourself, make a rough sketch of the doors, windows or special architectural features, such as dormers or stairs. Mark down all measurements and take the sketch to a reliable lumber dealer. From it he will be able to give you an idea of how much the job will cost. Often, too, he can give you some practical tips on ways to make your remodeling job easier and less expensive.



TWIN lavatories solve "washing priorities" problems in master bedroom or children's bedroom. The single-lever faucets add to the convenience—a touch of the finger controls temperature and volume simultaneously. Fixtures and fittings by American-Standard.

DOUBLE PURPOSE is served by this bathroom, which includes washing and drying equipment. Tile divider between tub and laundry houses piping for both. Fixtures and fittings by American-Standard.



"OPEN LOOK" is created by the new 5-foot Contour bathtub, which provides more bathing room in its asymetrical design and gives the bathroom a spacious appearance by eliminating one end wall. American-Standard.

# MANY FAMILIES GIVE THE KITCHEN TOP PRIORITY IN HOME PLANNING

Many a family will give the kitchen top priority in its program of home modernization, this spring. This reflects the fact that the kitchen has become an increasingly important room of the home in today's scheme of things. Not only must it be practical and efficient, but it must be cheerful and pleasant and coordinate with the home's decorating plan, sporting new colors and warmth to accent the richness of the companion rooms.

To accomplish the feeling of spaciousness, so desired by today's home-makers, kitchen planners are turning to breakfast bars, appliance islands, room dividers and see-through shelving, all of which contribute to the effect of a truly extended living area.

**Better Lighting**

Proper lighting can do much to make a kitchen easier and more relaxing to work in. Make sure that you have an adequate general illumination fixture at, or near, the center of the room. Local lights should be placed over the sink, range and other work areas. Finally, if you have wall-type cabinets, illuminate the dark areas under them with special eye-saving, under-cabinet lights.

Today's kitchens (and modernized old ones) have a "built-in" look. When your appliances are built into your cabinets or "stacked" into your base cabinets or counter tops, you no longer have a roomful of separate appliances, but a unitized kitchen with everything where you want it.

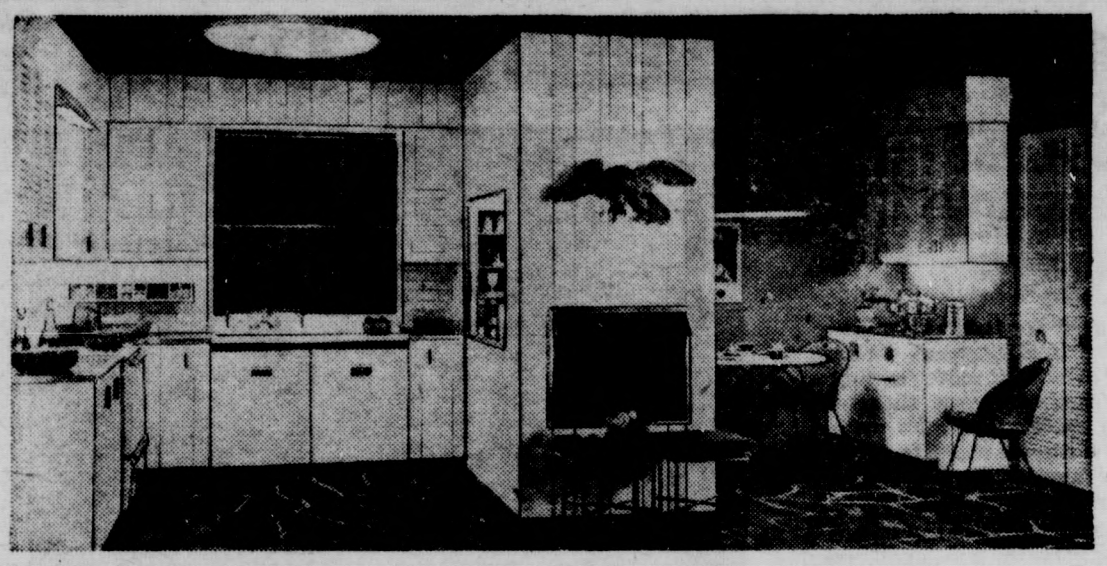
Your oven can be up at eye level. Your refrigerator and freezer can be hung on the wall, or installed in cabinets at eye level or under the counter.

There are space-saving range-top units that swing up against the wall when not in use, others that slide out like drawers. Some imaginative homemakers install two ovens—side by side, or one on top of the other.

**Convenient Cabinets**

Many old homes have enough cabinet space, but much of it is hard to get at without a ladder. The new kitchen cabinets are more compact and the contents are readily accessible.

For instance, you can get cabinets with Lazy Susan rotating shelves inside special drawers to hold canned goods on their sides where you can see their labels, space-saving shallow drawers for linens, special flip-up shelves that hold your mixer and bowls, rollaway serving carts that tuck into the cabinet base, disappearing towel bars, concealed slots to hold trays, built-in planning desks.



**POLISHED flagstone in a grey-blue tone creates a coordinating focal point of design interest in this modern kitchen - dining area. The irregular pattern of natural stone provides a decorative easy-to-care-for flooring in this heavy traffic area. Many stones are available in lightweight modular slabs.**

**STAINLESS steel equipment makes for durability and easy-care in this kitchen. Included are combination refrigerator-freezer, built-in wall oven and broiler; built-in range top and stove hood with stainless tile; dishwasher with stainless front, stainless triple sink.**

**SPACE-SAVING and efficiency in the kitchen are promoted by properly proportioned appliances. Note how tabletop electric water heater coordinates with under-counter dishwasher to provide a wide, level working surface. Both appliances by General Electric.**

## Permanent BBQ

Although barbecues can be prepared on portable grills, a permanent fireplace will make your yard a real center for warm-weather hospitality. Make the construction of the fireplace a family project and you'll have as much fun building as using it.

Here, from R. T. French home economists, are some pointers on building it:

1. Locate your outdoor fireplace so that it faces in the direction of the wind. This will provide a better draft and carry smoke away from front.

2. Select a high spot or small mound for its location to provide for natural drainage.

3. Solid base support is essential, so the foundation should be made of concrete. Where subject to frost, the concrete foundation should extend about four inches below frost line. Where not subject to frost, a firm bed of gravel or cinders will do.

4. Choose the type of material that harmonizes with your home. Brick, stones and concrete blocks are widely used for a variety of settings. If ordinary field stones are used, be sure they are the least porous types to prevent cracking from moisture and freezing.

5. The firebox, flue, and other inner areas in contact with flame and heat should be lined with firebrick to avoid chipping and other damage from temperature changes.

Here, too, are some tips to follow when barbecuing:

1. Build your fire early enough so that it will have burned down to coals by the time you are ready to cook the meal.

2. Oak, maple, and other hard woods produce long-lasting coals. Soft pine and similar woods are satisfactory for quick grilling. Charcoal provides intense, steady heat and lasts longer, making it highly desirable for broiling.

3. Keep the fire near the front of the grill for cooking meat. There will be enough heat at the back of the grill for making coffee and keeping foods warm.

## POPULAR ROSES HAVE MANY USES

The rose is the most popular of all flowers in the plant kingdom. Roses have many uses, which may account for their popularity as much as the beauty and quality of the flowers.

Consider the rose. It will flower from spring until heavy frost. It can be worn as a corsage. It helps in landscaping the property by affording continuous color and bloom. It makes an ideal flower for the dinner table or to decorate the home.

The perfume of many roses is delectable. They can easily be grown by anyone in almost every climate. They can climb up a porch, or any unsightly building transforming it into a thing of beauty. The rose universally is a symbol of love.

A reasonably fertile soil is all that is needed to grow roses well, according to the American Association of Nurserymen.

If your soil is too heavy, or too sandy, add peat moss. If rainfall is not sufficient, you water it once each week, and spray about every two weeks with a good all-purpose spray.

In the early spring, or after the heaviest first blooming period is over, add a handful of fertilizer to the soil around each plant.

With a dozen rose bushes one can have all the cut flowers he needs for the nome and around the property. With enough to spare for milady to wear a corsage to her favorite meetings. And be sure to ask for everblooming varieties.

Save on many houseware and paint items that we have on sale now. Now is the time to paint-up, fix-up. Take advantage of the many money saving bargains in our store NOW!

# MIRROR IS ONE OF THE NEWEST, MOST VERSATILE WALL COVERINGS

One of the newest wall covering materials is, surprisingly, one of the oldest—mirror.

In the past year, top decorators and builders have become remarkably conscious of wall mirror installations because of their versatility and beauty.

As one example, a model house chosen to be erected all over the country for National Home Week 1960 had both bedrooms with ceiling - to - floor, wall-to-wall mirrors, used as sliding closet doors.

Also, in recent decorators' show in New York, eleven leading American designers showed room settings featuring large areas of mirror — either as completely mirrored walls or in combination with fabric and wallpaper.

One of the reasons for this trend is that mounting construction costs continue to limit room sizes — and strategically placed mirror areas can stretch out walls make a small foyer seem twice as large, and can lower or raise a ceiling.

Moreover, a wall of mirror gives the impression that a room has twice as much furniture as it really has.

Mirrors can increase, even double, the amount of light in a room. One suggestion is a circle or square of mirror on the ceiling above a chandelier. Wall mirror directly behind a lamp will give more light without glare, and also stress the beauty of the lamp itself.

Designers and architects are now considering mirror as a material useful anywhere in building, like wood or stone. Technical developments plus new production methods are largely responsible for this current trend.

All top quality mirror is now made of twin-ground plate glass, where the glass sheet is placed in a machine which grinds and polishes both surfaces at the same time to eliminate any possibility of distortion.

With these new, perfected types of mirror available, the traditional picture of the small framed looking-glass has begun to give way to areas of mirror found about anywhere in a house.

Designers suggest, for example, mirroring a linen closet in back of the shelves, so you can see every item in the linen supply department.

Bathrooms are blossoming out in mirror, when once the little mirror on the medicine chest was the only one available for shaving or make-up. Even the medicine chest itself is giving way to long shelves with sliding mirror doors, or even racks of shelves with separate wall mirror covering the area from basin to the ceiling line.

The one major "don't" with respect to mirrors is to avoid putting them where people will have to stare at themselves for any length of time, as in a dining area against the table.

### PIPE MEASURING

To measure the outside diameter of a piece of pipe slip an adjustable wrench (with parallel jaws) over the pipe and close the jaws to fit around it. Slide off carefully without disturbing the setting and measure the distance between the jaws.

### BORING HOLES

Whenever possible, hold the hand drill in norizontal position while boring. The possibilities of keeping the bit square to the surface are greater.

**MIRROR over basin, combined with mirror doors on shower stall provide front and side views for make-up and shaving. Ceiling spot gives ideal lighting. Carolina Mirror Corp.**

**MAXIMUM visibility is afforded by complete mirror wall in the interior of this linen closet. Recessed down lighting provides excellent illumination. Carolina Mirror Corp.**

**STAIR ENCLOSURE in basement playroom is a useful storage cabinet and shelving unit, in which built-in TV and record player are concealed behind sliding doors. Prefinished Weldwood Samara was used.**

### DISPOSABLE PADDLES

Wooden tongue depressors (available at drug stores) make excellent disposable paddles for mixing small cans of paint or other material and also can conveniently be used to spread glues or mastic adhesives.

### LUMBER SAVINGS

Check to see if your dealer has a bargain section where end-pieces, mill "rejects", and similar economy-type lumber are displayed. Substantial savings can often be affected this way.

# Fire Prevention Bureau Gives Warning

This is the time of year when we all start to paint and tidy up our homes. It is also an ideal time to inspect our homes from cellar to attic, getting rid of all unnecessary combustible material, particularly accumulated waste and litter.

The Daly City Fire Prevention Bureau warns that poor housekeeping is a fire hazard and will cause a fire to spread and increase the damage materially. Neatness, orderliness and good housekeeping cannot be stressed too much. Remember, sixty per cent of all fires are preventable.

This spring, let s have a fire safe home as well as an attractive one.

An ordinary tweezer (used by women for cosmetic care) is a useful addition to any toolbox. It is ideal for holding tiny nails in position and for picking up small nuts, etc.

# Big Home, Little? You Probably Lack Adequate Storage

Big home or little home, large household or small, there is hardly a family that can say it has adequate storage space. The lack may be general — from attic to the basement — or it may be confined mainly to certain rooms, such as kitchen, bathroom, or family room.

Lumber and lumber paneling are ideal for creating built-ins to correct the lack of storage facilities, for lumber will fit into any decorative scheme and it is economical and easy to work with. This is especially true of softwoods and some of the most readily available are the species that grow in the western pine region.

Built-ins naturally should be appropriate to the room. This sounds elementary, but it takes some planning and forethought to work out the sort of built-ins that will do the best job in a specific situation.

For example, storage space in a kitchen should be co-ordinated with work areas. Drawers and cabinets should be planned to hold heavy equipment below counters and cupboards to contain lighter items should go above. Consideration should be given, too, to space for mixers, toasters, blenders and other small appliances that a housewife may not wish to keep out all the time.

In a bathroom — even in a small one — there usually is space to box in the area under the basin. This will provide room for towels, extra soap and bathroom tissue, and perhaps also for bulkier things such as hot water bottles. If the bathroom is fairly good-sized, then cabinets may be built on the wall to hold these supplies, medicines and other necessities.

A family room, of course can provide storage space for myriad belongings. These may include movie and slide projection equipment, card tables and game supplies, hobby materials, and radio-phonograph equipment. Space also might be set aside in this room to display a collection of old china and glass, athletic trophies, or, perhaps, prized examples of photography.

The storage wall is another concept that works in many rooms and will provide a great deal of varied storage space.

It is most useful, perhaps, in a child's bedroom, where a wardrobe closet arrangement will hold both hanging and folded clothing, and drawers or even bins can be utilized for sports equipment and toys.

**COLORFUL, shaded sandbox is built in setback in baffle that defines garden space set aside for children's activities. Western Pine region wood used.**

# MANY WIRING SYSTEMS NOW OUT-OF-DATE

Very often, homeowners continue using the same wiring system that they've been using for the past ten years, in spite of having added many new electrical appliances to their homes.

There's no doubt that electricity, through appliances and electrical utilization, has added much more comfort and convenience to our lives. But a home's wiring system must grow along with electrical use.

For one thing, the more appliances and uses for electricity, the more outlets will be needed, in the kitchen as well as in the living room, the bedroom, or, for that matter, on the patio or in the garden.

The versatility of appliances has created the needed for convenient outlets and plenty of them. Such modern devices as "appliance center" for kitchens can be plugged in at the same time are among the more glamorous convenience outlets available.

To have plenty of outlets is fine. But remember, there must be enough circuits to supply all those outlets with sufficient current to operate several appliances at one time.

It all starts with the power supplied to your distribution center through the "Electrical Service Entrance."

Adequate Wiring or Full Housepower begins with the availability of at least 100 amperes of electrical current at either 120 or 240 volts.

This will mean that up to 24,000 watts of energy may be utilized at one time.

If you add up the watts on the washing machine, dryer, toaster, iron, vacuum cleaner, refrigerator, lamps, radio, television and all the other electrical uses, you will begin to understand why adequate home wiring is so important.

And when you count up those wattages, remember that the 24,000 overall wattage for your home must be distributed through all the circuits in the house. And each circuit must carry its own load. That depends, quite simply, on the size of the wire. For example, a "number 12" wire can carry 20 amperes of current whereas a "number 14" wire can carry only 15 ampres (the larger the wire, the smaller the number designation). Today, "number 12" wires are recommended throughout the house, enabling 20 ampere fuses to protect the circuits.

If you are concerned about the wiring in your house, call in an electrical contractor to check your entire system.

### PREVENT FURNITURE RUST

Apply varnish to screw holes in furniture before inserting screws. This seals out moisture, prevents rust stains from forming.

### IMPROVISED "GLOVE"

By slipping your hand in an ordinary small plastic bag you have a waterproof "glove" that can be disposed of after a messy job.

### NEW CABINET LAVATORY

A practical way to beautify your bathroom or powder room is by the installation of one of the new lavatory-cabinet combinations. The vitreous china lavatory, obtainable in white or pastel colors, is fitted into a cabinet which provides ample and conveniently located storage space for towels and toilet articles.

### IMPROVISED THIMBLE

To protect finger, when sewing canvas, wrap several thicknesses of adhesive tape around the finger, doubling it over at the point where pressure must be applied.

### ERASE RUST

Light rust on hand tools or appliances can be removed by rubbing vigorously with a hard typewriter eraser.

### CONVERT BREEZEWAY

A breezeway or carport can be easily converted to a new living area in your home. When enclosing with Thermopane insulating glass, it becomes a year-round sun porch.

### CLEAN OIL FLAME

Today's heating oil is a highly refined, smooth burning fluid. It burns completely and spotlessly clean in a sealed combustion chamber.

### POPULAR WOOD

"Pecky" wood, which has shown tremendous gains in popularity in recent years, is wood that's been attacked by fungi, birds or insects. It used to be tossed away but is now enjoying a vogue for rustic interior paneling because of its "driftwood" look.

### BETTER GRIP

Wrap a band of electrician's tape around the bottom end of the handle on hammers and hatchets to minimize slipping.

### TINY TOUCH-UPS

Use your fingers to dab on paint in making very small touch-ups on painted moldings. The sensitivity of your fingertip will give you exact control.

**RELIEVE DOOR CATCHING**

If the bottom of a door rubs slightly, lay a sheet of coarse sandpaper at the trouble point and work back and forth rapidly. This should sufficiently smooth down the wood to avoid need for planing.

**EASIER PLANING**

To ease the job of planing a large hardwood surface, sponge the area lightly with water beforehand. This raises the grain slightly and gives the edge of the plane a better "bite."

**WASH NEW ROLLER**

Before using a new paint roller, wash with warm water and soap. Rinse thoroughly to remove suds, lint and dust. Dry completely for use with oil base paints.

**STORING BRUSHES**

Wrap paint brushes in stiff paper immediately after cleaning. Crease paper over at the end to maintain a sharp edge on the bristle, and tie.

**BORING HOLES?**

To avoid getting a ragged edge on the back side of the board, back the panel with a block of scrap wood or lay it flat on top of a board. Clamp the two pieces together till after the hole is drilled.

**EMERGENCY SCRAPER**

Course mesh screen wire, wrapped around a block of scrap wood, fills the bill for scraping thick layers of blistered paint.

**USE CORRECT TOOL**

When applying adhesives to wall or floor before laying tiles, use the notched spreaders recommended by manufacturers. Avoid applying too little or too much.

**"SAW HORSE"**

You can improvise an extra "saw horse" by opening a ladder about two-thirds the way while it is laying on its side.

**GLUE WARMER**

To keep glue warm for easier flow and better results, you can pour it into a tin can and let it stand in water inside a baby's bottle warmer.

**PREVENTS RUSTING**

Apply a thin coat of paste wax to metal parts and handles of hand tools used outdoors to prevent rusting and keep tools free of dirt.

**FOIL FUNNEL**

Use kitchen type aluminum foil to make a funnel when liquids or powders must be poured from large containers into narrow-necked jars.

**EYE DROPPER OILER**

An eye dropper is good for measuring exact amounts of oil required for delicate parts and small motors.

# Built In Hi-Fi Can Be Important Part Of Remodeling

A built-in high-fidelity music system can be an important part of your remodeling plans, and it's no trick to install.

"If you select the best components you can afford, a built-in hi-fi system gives you all the beauty and enjoyment of good music with the utmost in convenience," according to engineers of a leading maker of hi-fi components.

They recommend these rules to guide you:

1. If you presently have hi-fi components, skip this part. But if you're starting out, the basic components are an amplifier, a record changer or turntable, a tone arm with a magnetic cartridge (the component that holds the needles), and a speaker—two speakers if you have a stereo system. You can also add a radio tuner to bring in AM or FM broadcasts.

2. Lay them out in approximately the location they'll be in when you build them in, then hook them up. Determine if the layout sounds good and is convenient. This is especially important with stereo.

3. Speakers can be mounted in cabinets which can stand on the floor or be hung from the wall. Or if a true built-in look is what you want, you can install speakers in recesses in the walls or ceiling. If you do this, make sure the recess is properly insulated and baffled. Your high-fidelity dealer can give you specific information on this subject. He can also provide the grill cloth to cover the wall or ceiling opening.

4. If you plan on additional speakers in other rooms of the house, make sure the wires for this are laid in place before the remodeling is complete. Ordinary lamp cord is often sufficient for the hook-up.

Serving Daly City Since 1932 PL 6-1130

# 5-Point Electrical Safety Check Issued

The Electrical Construction Industry of San Mateo County today issued a five-point safety check list for the new or remodeled home:

1. Conduit—meallic tubing—for all wiring. It is the safest wiring system known because it is perfectly grounded, fireproof and tamperproof.

2. Adequate service entrance, bringing at least 150 amperes of current into the home to meet present and future needs without dangerous overloading. Many older homes have only 60 ampere service, wholly inadequate for today's appliance and lighting loads.

3. Circuit breakers, which automatically cut off power when a circuit is overloaded or a defective appliance plugged in. minimizing fire hazard and eliminating the danger of overfusing.

4. Lights in all stairways, halls and closets.

5. Light switches located conveniently at both head and foot of stairs.

The Industry reminder points out that conduit is required by building codes in all apartment houses, buildings where numbers of people may congregate such as churches, schools and public buildings, and all commercial and industrial installations.

Conduit is also partially required in single family residenses. The Industry contends that by using conduit throughout, the homeowner builds in greater safety and permits economical expansion of electrical circuits for future needs. Wiring can be removed easily from conduit and larger wires inserted to handle additional loads.

The Electrical Construction Industry is composed of representatives of Electrical Contractors, International Brotherhood of Electrical Workers Local Union 617, and the public to promote electrical safety, apprentice training and high standards of electrical wiring.

Members of the ECI Committee are James J. Hawks, Sharp Park Electric, Pacifica, Chairman; W. H. Diederichsen, Business Manager IBEW Local 617, Secretary; Robert G. Coleman, Manager, San Mateo County Chapter National Electrical Contractors Association; E. M. Canete, R. C. Electric Co., Inc., Redwood City; William M. Blohm, County Electric, San Carlos; Frank B. Bouret and John S. Van Winkle, San Mateo, IBEW; and James R. Tormey, County Superintendent of Schools, representing the public.

# 33% to 20% DISCOUNTS OFF REGULAR LOW PRICES DURING GRANTS MILLION DOLLAR Curtain & Drapery Sale
